

PROGRAM BOOK FOR
SEMESTER INTERNSHIP

Name of the Student: **ALLU JAGADEESH**

Name of the College: **MRS AVN COLLEGE**

Visakhapatnam.

Registration Number: **720130805002**

Period of Internship: 15 weeks (540 Hours) From: 01.04.2023 To: 14.07.2023

Name & Address of the Intern Organization:

JSS INSTITUTE, Maddilapalem Road, Visakhapatnam, Andhra Pradesh.

Mrs AVN COLLEGE, Visakhapatnam.

Andhra University

YEAR 2022-2023

- ❖ Business communication skills
- ❖ Team building
- ❖ Team working skills
- ❖ Personal productivity (motivation)
- ❖ Creative thinking
- ❖ Presentation skills
- ❖ Leadership for project leaders
- ❖ Time and self management
- ❖ Effective meetings
- ❖ Cross culture.

E. Performance the Organization Terms of turnover, profits ,market reach and market value.

Traditionally, a marketing plan includes the four P's: Product, Price, Place, and Promotion. For a software company business plan, your marketing strategy should include the following:

Product: In the product section, you should reiterate the type of software company that you documented in your company overview. Then, detail the specific products or services you will be offering. For example, will you provide open source programming, SaaS products, or software to support Microsoft systems?

Price: Document the prices you will offer and how they compare to your competitors. Essentially in the product and price sub-sections of your plan, you are presenting the products and/or services you offer and their prices.

Place: Place refers to the site of your software company. Document where your company is situated and mention how the site will impact your success. For example, is your software company located in a professional technology park, a standalone building or is it purely online? , Discuss how your site might be the ideal location for your customers.

WEEKLY ACTIVITY LOG

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief Description of The Daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 1-4-23	Explain about python programming concepts	python supports functions & structures of programme as well as oops	
Day -2 3-4-23	Explain about introduction of python	python is a dynamic, interpreted language	
Day -3 4-4-23	Explain about history of python	python was created by Guido van Rossum	
Day -4 5-4-23	Explain about installation process	python is installed - it should show up as the best Match	
Day -5 6-4-23	Explain about Features of python	→ free open source → easy to code	
Day -6 7-4-23	Explain about features of python	→ python supports object oriented language	

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief Description of The Daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 8-4-23	Explain about difference between C++, Java and Python	Java, C++ is platform dependant and Python is independent	
Day -2 10-4-23	Explain Python program structure and sample program	The structure of Python program consists of 3 files.	
Day -3 11-4-23	Explain about Python variables with examples	A Python variable is a symbolic name that is a pointer to an object.	
Day -4 12-4-23	Explain about Python variables, data types with examples	Python data types are used to define the type of a variable.	
Day -5 13-4-23	Explain about Python data operators and comments with usage	Python operators are the constructs which can manipulate the value.	
Day -6 14-4-23	Explain Python keywords and literals and usage	Keywords are pre-defined reserved words used in Python programming language.	

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief Description of The Daily Activity	Learning Outcome	Person In-Charge Signature
