V-Soft Technologies

Date: 18-07-2023

LONG TERM (SEMESTER) INTERNSHIP COMPLETION CERTIFICATE

This is to certify that **SHAIK RAZA THOUSIF** , **Regd.No:720130805148, B.Sc**

from Mrs. A.V.N College , Visakhapatnam has been successfully completed

" Computer Hardware & Networking" internship of duration of 15 weeks

(540 hours) from April 2023 to July 2022 supported by V-Soft Technologies,

Visakhapatnam. He was motivated and sincere at his tasks.

Program In-charge
V-Soft Technologies

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

A. Introduction of the Organization
B. Vision, Mission, and Values of the Organization
C. Policy of the Organization, in relation to the intern role
D. Organizational Structure
E. Roles and responsibilities of the employees in which the intern is placed.
F. Performance of the Organization in terms of turnover, profits, market reach and market value.
G. Future Plans of the Organization.

A. __Introduction__ __of__ the organsation

v. soft technologis viskhapatnam provide software product it service Hardware and networking servicig web development v. soft techlogics has integrate service to create costmised solution to costomer requirment.

B. __vision__ . __mission__ __and__ __value__ of the organsation

v. soft technology commited to help business providing qualited rasorce and proffesional servicer with the best quality.

C. __policy__ of the __organisation__ __in__ __relation__ __to__ __the__ intern role :-

v· soft technolggies solve The costomer qulries quickly and cost efffectively into complex environment it grows how we deliver service to claimh.

Weekly schedule :-

* Daily attending the class on time

* Achieving objectives

* Repating the outcomes to faculty guide

* At the weekend , preparation of weekend Report.

Equipments :-

* PC Hardware

* cables

* LAN equipment

* o.s software

* Application software.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day – 1	optical Bar code Reader (COBR) data and used to medical Records	optical Bar code Reder (COBR)	
Day – 2	output devices translate The language of bits into a form human.	output devices on certain application.	
Day – 3	these can recongize the human voice and recongnize techiques	voice - input device word by the different Person.	
Day – 4	which the copable of detecting characters an OCR font	optical character Rouder (OCR)	
Day – 5	primary memory stores the data instruction and informations.	storage devices RAM ROM	
Day –6	this type of storage device has a layers of coating magnetic subetance	magnetic storage devices (MSD)	

Objective of the Activity Done:

Detailed Report:

* A mother board is the main printed circuit board (PCP) found in computer and other technological system.

* The north and south bridge will have a diffrnt chip names even though they are very aften paired with the same oppasite bridge to come under the collective name of the chipset.

* A microprocessr incorporates the function of a computer component that was designed central processing unit (CPU) on a single integrated circuit (IC)

* A floppy disc drive is a computer component that was designed to read and write to floppy disk that ware used for removed storage.

Objective of the Activity Done:
Detailed Report:

* A hard disk drive (HDD) is a data storage device used for storing and retaving digital information using rapidly rating discs with magnetic material.

* A Digital video disc (DVD) also known as a digital versatile disc is an optical disc that stores data and video

* Random Access meomory (RAM) is a computer storage location that allows information to be stored and acessed quickly from random location within DRAM on a module.

* The switched mode Power supply convents the available unregulated AC or DC input voltage to a regulated dc output storage.
