The answers they gave have been formed part of the mini project. The role of myself played vital and learnt a lot of information and gained knowledge as part of the community service project. The role of government has been taught to local markets, the corporate style of business have been taught to the local business to play tactics, to the local business have its to deal with customers.

## CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation. Attach the questionnaire prepared for the survey.

The survey has been implemented successfully and the local markets in Akkayapalem have been enquired and the culture, ethics, values of the locality have been up kept. The local markets and about their disadvantages they face, the support they needed and the role of the government in their daily business.

Questionnaire prepared for the survey:-

1. The price of the vegetables how they fix?
2. The advantages they get from vegetable marketing?
3. How they manage their life?
4. How they treat the perishable goods?
5. How they deal with rippen vegetables?
6. How government aid them with facilities?
7. How they fix the margin?
8. How to deal with customers?
9. How they safeguard their business?
10. How they treat stock days?
11. How they survive in the heavy competition?
12. How they face daily needs of the business?

Describe the problems you have identified in the community

The community has been well established and is well managed by the citizens of Akkayapalem. Although it is well established there are many problems that the community is facing with. These includes the increased competition among the business people. The area has been developing and at the same time there have more and more business visiting in the locality.

Due to increased business competitions the sale has been reducing gradually with low profits. On the other hand the prices are also decreasing as they are in a stage of perfect competition. The increased competition has begun the introduction of corporate style of business into practice. The government has not been able to control the increased competition as it is an unregulated market. The problem of survival is affecting heavily the locality as the Rajkhu Bazar is government aided and is supplying the vegetable at a low price. The individuals due to cause of investment are not able to concentrate on vegetable marketing which is an advantage for the corporate aided business.

Short-term and long term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

Short term action plan recommendation:

- \* The restrict the existing business and to regulate the new and upcoming business in the same locality.
- \* To eliminate the middlemen so as to get the vegetables at low cost so that they can gain margin.
- \* The government need to take action plan to reach the wholesaler at a given path to eliminate corruption.
- \* There should be proper measures to take off the rotten vegetables and to make proper use of it.
- \* There should be implementation of awareness among the customers about the healthy food.

Long term action plan recommendation:

- \* The government has to regularly check the activities of the middlemen so as to restrict them.
- \* The government has to conduct awareness programme on vegetable marketing so as to educate both the farmers and the customers.
- \* The government has to provide subsidy to the farmers to give them better and healthy seeds.
- \* The government has to give better health campaign to eat healthy food so as to give food.
- \* The government has to implement the process of high rate taxation for unhealthy food to avoid cancer.

**Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.**

The community awareness programme has been as important and innovation step taken to impart communication skills within a student, which is very important for their growth. The problems are known as we imported with this, and there can solution for their problems.

The community awareness program brought out the problems the locality is facing due lack of proper rules and unregulated market. There can be both short term and long term goals to bring out the solution to the problems that are being faced by the community. The outcomes are independent of the problems faced by the community, as the individual shop has an individual problem, and the problem has to be dealt individually. The only solution that can bring a major change is to be taken by the government to take stringent measures in the existence of middle man and to provide proper cold storage facilities for the storage of vegetables. The vegetables are grown once a year but the demand for the vegetables will be for the whole year. Hence, the demand can only be met when there are proper resources of using the vegetables.

### Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex., a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.

The Report shall be limited to 6 pages.

Vegetable marketing plays a vital role in the new market arena as the demand for vegetables are there for the whole year where as the crop is grown once, but it has to be supplied for the whole year hence proper vegetable marketing techniques have to be implemented so as to safe guard the interest of the consumers. As part of the program a community service project has been undertaken and has been used as a weapon to introduce the impact of vegetable marketing.

As part of the community service program the locality of Akkayapalem has been chosen to take the role of inducing the importance of vegetable marketing and to know their problems and to prepare a report to the government, so as to in due with the difficulties faced by the locality. And as part of the community service project various shops in the locality have been visited and were asked about their difficulties they face and the advantages they gain over the other. A Questionnaire has been prepared and were asked as per the questionnaire and the problems were out looked.

KR vegetable market has been an old and were established market in the locality of akkayypalem. It has a prominent place in the locality as its presence is known for years. The questionnaire has been answered as below.

\* The price is fixed on the purchase price they get.

\* The vegetable marketing helps them to improve and expand their business.

\* The daily sales have been a way for their survival.

\* They use perishable goods as a wasteage and will use to treat organic farming.

\* Vegetable marketing will be an outsource to implement the techniques.

Chaitu vegetable has been a new business shop in a prominent place and has been intended with the corporate business with a view to entrust safety and healthy food so as to implement the healthy and enriched food.

\* The dealing with customer plays an important role as it is the most and prominent way of doing business.

\* The price is fixed by the margin of 5% on the purchase price as they will be at the part of charity.

\* The daily sales will be set aside as they wanted to know about their business growth daily.

\* The vegetable marketing has been part of their business rapidly as the impact of corporate intent has been established.

### Analysis of local area:

As part of community service project the local market and the local vegetable shops have been visited as part of the community service project. All the vegetable shops in the area have been visited and questioned as part of CSP. Noted down all the answers and were informed about the problems. A report has been prepared keeping in view the short term and long term possibilities that has to be set in order to enhance the community.

The local area has been verified and the advantages and disadvantages they face are taken into concern as part of community service project.

Community diversity, tradition, ethos and values:

It's our 'values system' and 'the principles' that drive the people of the community. Akkayapalem has been embarked by the empowerment of

women, self respect and ethical behaviour of the citizens in the area, with a high degree of integrity is the practice in every aspect of our being. We believe that, it inculcates strong

and courageous attitude in our approach towards the society. The people here have high quality deliverance which sets extremely high standards of quality, all areas of operations are

constantly striving, and upgraded for excellence.

'Ethics' inseparable from the people to improve both health and quality of life are adherence to ethical principles. Human welfare with quality

deliverance is the major advantages of the citizens.

Socio - Economic conditions of the community:

The people of Arkonopolis are economically stable and are represented by greater business of the city. They are well established with high-fi life to one side. On the other point there were citizens who work on the basis of daily wage, which made their life an obstacle to live. The vegetable seller from part of the backward area. They will be affected due to increased super markets, hyper markets and the entry of corporate sector into the society. They were also affected by the increased competition among themselves. The socio-economic conditions of the community are never stable due to the rich being classified to one side and on the other hand the poor getting degraded due to high exploitation. The vegetables market are facing a lot of competition and facing losses due to rotten vegetables and lack of storage facilities.

## CHAPTER 6: RECOMMENDATIONS AND CONCLUSIONS OF THE MINI PROJECT

Through this community service project we implemented the skills of communication to communicate with the local people. We imparted to provide understandability as the basic goal as we need to visit the local area and need to visit different kinds of people. Communication skills played a vital role in the process of CSP. I came to know how to deal with different kinds of people and how to face customers who have different mindsets.

Technically, we learnt to do a business which has been a difficult phase to lead in life working under a person has been differentiated from owning a business. The people have to mould themselves in order to gain customers and improve their business. Hence, the values and ethics learnt through the community service project and technical skills implanted by the community service project would be an advanced <sup>feature</sup> ~~feature~~ to the students to reach their goals in the future.
