- 8) How they deal with customers?
- 9) How they safeguard their business?
- 10) How they treat slack days?
- 11) How they survive in the heavy competition?
- 12) How they fix their daily needs of the business?

Describe the problems you have identified in the community

The community has been well established and is well managed by the citizens of seethammadhara. Although it is well established there are many problems that the community is facing with home includes the increased competition among the business people the word has been desolating and at the same time there have more and more business rising in the locality.

Due to increased business competitors the sale has been reducing gradually with low profits. On the other hand the prices are all decreasing as they are in a stage of perfect competition. The increased competition has begun the introduction of corporate style of business into practice. The government has not been able to control the increased competition as it is an unregulated market. The problem of survival is affecting heavily the locality as the Rythu Bazar is government aided and is supplying the vegetables at a investment are able to concentrate on vegetable marketing which is an advantage for the corporate aided business.

Short-term and long-term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

### Short term action plan recommendation:-

- \* To outlist the existing business and to regulate the new and upcoming business in the same locality
- \* To eliminate the middlemen so as to get the vegetables at low cost so that they can gain margin.
- \* The government need to take action plan to reach the wholesalers at a given path to eliminate corruption.
- \* There should be proper measures to take off the rotten vegetables and to make proper use of it.
- \* There should be implementation of awareness among the customers about the healthy food.

### Long term action plan recommendation :-

- \* The government has to regularly check the activities of the middlemen so as to restrict them.
- \* The government has to conduct awareness program on vegetable marketing so as to educate both the farmers and the customers.
- \* The government has to provide subsidy to the farmers to give them better and healthy seeds.
- \* The government has to give better health campaign to eat healthy food so as to give food.
- \* The government has to implement the process of high rate taxation for unhealthy food to avoid cancer.

Description of the Community awareness programmes conducted over the problems and their outcomes.

The community awareness programme has been an important and innovative step taken to impart communication skills within a student, which is very important for their growth. The problems are known as we interact with them and there can be community awareness solution for these problems.

The community awareness programme brought out the problems the locality is facing due to lack of proper rules and unregulated market. There can be both short term and long term goals to bring out the solution to the problems that are independent of the problems faced by the community, as the individual shop has an individual problem and the problem has to be dealt individually.

The only solution that can bring a major change is to be taken by the government to take stringent measures in the existence of middlemen and to provide proper cold storage facilities for the storage of vegetables. The demand for the vegetables will be for the whole year. Hence the demand can only be met when there are proper resources of growing the vegetables.

### Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex. a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.

*The Report shall be limited to 8-10 pages.*

Vegetable marketing plays a vital role in the new market arena as the demand for vegetables are there for the whole year whereas as the crop is grown only for once. The demand for the whole year will be grown once but it has to be supplied for the whole year hence proper vegetable marketing techniques have to be implemented so as to safe guard the interests of the consumers.

As part of The program a community service project has been undertaken and has been used as a weapon to introduce the impact of vegetable marketing.

As part of the community service program the locality of Sethammadhara has been chosen to take the role of inducing the importance of vegetable marketing and to know this importance of and to prepare a report to the government so as to in due with the difficulties the difficulty faced by the locality. And as part of the community service project various shops in the locality have been visited and were asked about this difficulty they face and the advantage they gain over the other. A questionnaire has been prepared and were asked per the questionnaire and the problems were outlined.

## KR Vegetable Market :-

KR vegetable market has been an old and well established market in the locality of seethammadhara. It has a prominent place in the locality as its presence is known for years. The questionnaire has been answered below.

- \* The price is fixed on the purchase price they get.
- \* The vegetable marketing helps them to improve and expand their business.
- \* The daily sales have been a way for their survival.
- \* They use the perishable goods as a way of life and will use to treat organic farming.
- \* The government has to take proper care of the imposed competition and has to provide subsidy so as to help them.
- \* Vegetable marketing will be an outcome to implement.

## Chaitu Vegetables :-

Chaitu vegetables has been a new business shop in a prominent place and has intended with the corporate business with a view to entrust safe and healthy food so as to implement the healthy and enriched food. The questionnaire has been answered as below.

- \* The dealing with customer plays an important role as it is the most and prominent way of doing business.
- \* The price is fixed by the margin of 5% on the purchase price as they will be at the part of charity.
- \* The daily sales will be business growth daily.
- \* The vegetable marketing has been part of their business rapidly as the impact of corporate intent has been established.

### Analysis of local area :-

As part of community service project the local market and the local vegetable shops have been visited as part of the community service project. All the vegetable shops in the area have been visited and questioned as part of C.S.P notes down all the answers and were informed about the problems. A report has been prepared keeping in view the short term and long term possibilities that has to be set in order to enhance the community. The local area has been verified and the advantages and disadvantages they face are taken into concern as part of community service project.

Through this community service project we implemented the skills of communication to communicate with the local people we intended to provide understandability as the basic goal as we need to visit the local area and need to visit different kinds of people. Communication skill played a vital role in the process of community service project. I came to know how to deal with different kinds of people and how to face customers who have different mind set.

Technically we learnt to do a business which has been a difficult phase to lead in life working under a person has been differentiated from owning a business. The people have to mould themselves in order to gain customers and improve their business. Hence, the values and ethics learnt through the community service project and technical skills imparted by the community service project would be an advantage for the student to reach their goal in the future.
