COMMUNITY SERVICE PROJECT

USES OF MOBILES

* SCOPE:-

- * To study the attitude of teenagers and youth age group 15-30 years towards cellular phones
- * Enumerate the usage patterns and assess at peculiarities, gender-wise or age-wise if any.
- * Examine the way young people relate to the functionality of mobile phones as well as assess observable phenomena.
- * Details and document their thoughts for purchases and influencers at the time of purchase.
- * Identify the different associations with cellular phones
- * Investigate their awareness with regards to the recent launches of mobile handsets in the market.
- * Understand their perceptions for issues like Medical side effects and privacy implications.

* Uses of mobile phones objectives :-

Mobiles phones have transformed many Business cultures because they allow employees to communication rapidly facilitating many Business processes from project management to sales Business-oriented mobile phones aim to provide an easy and intuitive interface along with quick access to email and other digital forms of communication.

①. ACCESSIBILITY

- * The primary objective of mobile phones in business environment is to increase the accessibility of business information
- * No longer does it matter if an employee is in the office or not
- * when out on business travel or Business lunches they can still access email, field calls and check voice-mail messages, just as if they call were at their desk in the office.
- * This type of their accessibility gives some Business objectives.

2. Internet Access

- * While laptops have been commonly used to access the Internet when employees are in transit mobile phones are quickly replacing them.
- * Mobile phones can also be used to provide an Internet connection to other internet capable devices the connection provided by the cell phone network.

3. Instant Communication

Mobile phones can also provide quick access to alternative communication channels, such as simply becoming more popular as ways for business to reach customers and employees alike for mobiles.

4. Contact Storage

- * In the net-so-distant past, many business people relied on Rolodexs or physical address books to store their contacts.
- * Mobile phones in business have replaced these physical means of storage.
- * The information in a Rolodex or address book at their office

* Mobile phones of features (or) functions

The features of mobile phones are the set of capabilities, services and applications that they offer to their users. Mobile phones are basic refer to as feature phones more advanced computing ability through the use of native code to differentiate their own product by implementing additional functions to make them more attractive to consumers. This has led to great innovation in mobile phone development over the past 20 years.

* A number of metal-oxide-semiconductor (MOS) integrated circuit (IC) chips

* A battery (typically a lithium-ion battery) providing the power source for the phone functions

* An input mechanism to allow the user to interact with the phone. The most common input mechanism is a keypad but touch screens are also found in smart phones.

- * Basic mobile phone services to allow users to make calls and send text messages
- * All GSM phones use a SIM card to allow an account to be swapped among devices. Some CDMA devices also have a similar card called a R-UIM
- * Roaming which permits the same phone to be used in multiple countries, providing that the operators of both countries have a roaming agreement.
- * application like a clock, alarm, calendar, contacts, and calculator and few games. Sending and receiving pictures and videos through and SMS, and for short distance with phones Bluetooth.
- * In Multimedia phones Bluetooth is commonly but important feature
- * GPS devices integrated or connected (i.e. using Bluetooth) to cell phones, primarily to aid in dispatching emergency responders and road tow services. This feature is generally referred to as eCall.

-o Advantages & disadvantages :-

-o Advantages of cell phones :-

- * keep's us connected
- * day to day communication
- * Entertainment for all
- * Managing office work
- * mobile banking.

-o Disadvantages of cell phones :-

- * wasting time
- * Making how us non-communicable
- * Loss of privacy
- * Money wastage.

Conclusion

A cell phone could both be positive and positive and negative depending on how a user uses it. As mobile have become a part of life so we should use it in a proper way carefully for our better health - free life rather than using it and in properly and making it a virus life.

+ Limitations :-

- * The study seeks to provide a helicopter view of the field reality and hence inferences drawn do not provide conclusive evidence to any social changes in particular albeit they cut us in spotting on underlying trends
- * The findings are based entirely upon the research conducted in Mumbai and hence may not be applicable directly to other metropolitan areas on counts of socio-cultural diversity and contextual factors. (8)
- * with a larger sample size spread across other metropolitan cities in India one might arrive at results with higher confidence levels and also at trend for Urban India in particular such a survey needs to be undertaken
- * Ken periodically to gauge the exact consumer perception that they keep changing with time
- * due to constraints of time certain topics have not been touched upon at all during be further taken covered.

ACTIVITY LOG FOR THE FIRST WEEK

DAY & DATE	BRIEF DESCRIPTION OF THE DAILY ACTIVITY	LEARNING OUTCOME	Person In-charge Signature
Day - 1	SOCIO - ECONOMIC Survey conducted on Socio - Economic Condition	→ Environmental Conditions of Surroundings are Identified	K. Prasad
Day - 2	SOCIO - ECONOMIC Survey To know the conditions of the Habitation	→ Problem that are report in Community like worsend	A. Prasad
Day - 3	SOCIO - ECONOMIC Survey A survey from based on the type of habitation	→ POOR Sanitation Pollution etc... are identified.	G. Anil

Day - 5	observation & competition of brands.	Competition between parties	G. Jagan
Day - 6	exactly of mobile sales manager of mobile company ex: Airtel, Reliance, etc...	branding Country.	N. Mahesh

WEEKLY REPORT

WEEK - 3 (From Dt...9-10-22... to Dt...16-10-22...)

Objective of the Activity Done:

Detailed Report:

I conducted this survey and very complimentary was gathering out comes about the mobile usage.

There has been tremendous use growth of the mobile phones in India. It is reported that the India's telecommunication market is the second largest in the world. The mobile phones are available to the people right from the age of 12 years. The mobile phones technology has brought the world closer. It provided great convenience in communication among people by way of either calling or texting.

The first hand held cellular mobile phone was demonstrated John F. Mitchell and Martin Cooper of Motorola in 1973. Over the years starting from simple to smart one can say that a cell phone is fundamentally essential to present-day life. This advanced invention is the most rapid change in daily life. has ever seen we are now able to read watch and listen to anything from any where in the world.

ACTIVITY LOG FOR THE FOURTH WEEK

DAY & DATE	BRIEF DESCRIPTION OF THE DAILY ACTIVITY	LEARNING OUTCOME	Person In-charge Signature
Day - 1	Mobile usage is what Evaluated of the necessary	Use of Mobile phones is necessary.	A. Ramu

Day - 4	Service of Mobile repair	Service located near areas	S. Mahesh
Day - 5	manufacturing of the kind of Brand's	Manufacturing of Mobile in India, China.	K. Ram TEJA
Day - 6	branding logo	branding logo Oneplus, OPPO VIVO.	U. Kishan

WEEKLY REPORT

WEEK - 4 (From Dt. 16/10/22 to Dt. 22/10/22)

Objective of the Activity Done:

Detailed Report:

I conducted this survey was very complimentary way gathering outcomes about the mobile usage.

Mobile phones are powerful communication device, mobile phone have become an integrated part of every one's lives. There were more than even billion usage is also using rapidly over time. The mobile phone has turned from a technological feat to a social tool. Telephone engineering has explained that the telephone was made for the business world now a day's mobile phones have become, status symbol for student, mobile, learning has emerged as a new technological achievement, with the use of mobile technologies, the potential, for effective teaching and learning is growing. This is due to the benefits of mobile learning, including the ability to share knowledge, with out any limits. The term mobile learning is still developing day by day and its exact meaning is still unclear. Therefore mobile phones.

Describe the problems you have identified in the community

* Digital eye strain :-

Eyes begin to burn and itch blurred vision and digital eye strain can cause headaches

* Sleep disturbances :-

Cell phone addiction has been linked to an increase in sleep disorders and fatigue in users

* Distraction :-

Mobile is a disturbing device that creates a distraction between your work. It is seen in students that easily distracted from their studies.

* Addiction to mobile phone :-

using mobile phones too much makes a person addicition to them.

* Health problems :-

Excessive use of mobile phones causes the health problem and mental disorders such as anger, depression, anxiety, tension and other's.

Short-term and long term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

Mobile phones Addiction solution :-

Short term solution :-

- * fix daily limit of hours for usage of mobile.
- * turn off notification of social media.
- * offer yourself rewards for less time spent on your phone.
- * Take a cell phone holiday.

long term solution

- * Don't charge your phone, near your bed.
- * meditation, yoga, exercise and other mind fultrags activities reducing the craving from the dopamine rushes your phone provides
- * Turn off all notifications unrelated to communication from real people.
- * Take distracting apps off your home screen
- * change habit of excessive use of mobile
- * During cell phone conversation, reduce movement as little as possible.

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

→ Overheating phone :-

* Solution :- give phone some time to 'refresh' and start using it again

→ Full storage space :-

* Solution :- try to delete those files and apps that you do not use anymore. you can also delete old calls and text message clean the cache data.

→ Connectivity Issues :-

* Solution :- enable the airplane mode for at least

• minute then try to connect again. occasionally you can turn off and on the connection that is failing and then try to connect it again

→ Slow phone :-

* Solution :- close & delete apps, files and clear the cache data

→ Bad battery life :-

* Solution :- enable the battery saving mode and see if your battery lasts longer, check your battery usage in your phone settings and see which apps are using more battery. you can close & disable need them.

Report of the mini-project work done the related subject w.r.t the habitation / village

The Report shall be limited to 6 pages.

Usages of cell phones :-

Mobile phones are one of the most commonly used gadgets in today's world.

They come in use for communication through voice message, and mails, we can take also surf the internet. Using a phone, most importantly we can click photos and record videos through our mobile cameras.

Advantages of mobile phones :-

→ Easy communication. The main benefit of using the mobile phone is that they make the mode of communication easier and cheap.

- * Education
- * Social media
- * promoting business
- * good for people's safety
- * helpful in emergency situations.

Save money via mobile

- * Accessing the Internet through mobile phones
- * Easy of Information and knowledge: Quenching the thirst for knowledge has to be the most important advantage of smart phones
- * Staying Connected: you can be connected to friends and family even when work takes a toll on personal life.

Disadvantages of mobiles

There are so many disadvantages of using mobile phones constant distraction social disruption never-ending workdays ongoing expenses, cause of accidents, health problems, youth crimes, net work, issue Bank transaction, travel, hacking etc..

work life balance

You could eternally be stuck at work even after office hours or be constantly distracted by personal calls at work either way it is disrupting balance

steering eyesight

Most people are staring at their screens before falling asleep in the dark of night. This can lead to partial blindness

Impact of Mobiles

- * studies show that people addicted to mobile phones often are linked to depression, anxiety and other mental disorders
- * waste of time: the average person checked his phone once most of the time. People just check their phones for no good reason.
- * the mobile phones are used at places, like hospital's, judicial court's; petrol pumps where their use is banned.
- * the mobile phone use during driving is commonly observed which may increase the chances of involving in accidents.
- * the use of mobile phones while driving can distract attention of the driver visually, physically and cognitively. Earlier studies have shown that various personality traits like neuroticism, extraversion to each other.
- * The gender may also play some role in high mobile phone use.
- * the study will be done exploratory basis and there will not be any hypothesis.

Most frequently used Application.

Netflix, Aha, Zees, google, chrome, youtube, google play store, Disney, amazon prime video, youtube, kids, HBO, Max, game Five Five, discord, Joine. Clash. 8ball, ludo king, Call of duty, myntra, Ajo. telegram, paytm Greyy etc...

Harmful effects of Mobiles

Over Usage of Mobile phones may cause psychological such as dry eyes, Headche, Eye Irritation's computer vision, syndrome, weakness, of through and wrist, neck pain & rigidity, Anxiety increased frequency of degeneration's, tenosynovitis, tactile, hallucination's, Nomophobia, delusions, insomnia, hallucination, lower self-confidence, insomnia, disorder's In animal's chronic exposure to wifi radiation caused behavioural alterations lower enzyme impairment, Psychotic Nucleosy may increased the reactive oxygen species, which plays an important role in the development of metabolic & neurodegenerative diseases.

This survey is a unique examination of the modern phenomenon of mobile phone technology use of utility.

This study facilitated data collection of an evolving pattern of mobile phone usage.

Mobile phone technology has strongly integrated to aid academic work & disturb their daily activity.

Despite the positive benefits of using a cell phone for people

cell phones have completely changed our world people know use them for leisure time, business school, and so much more cell phones are not just cell phones anymore. people rely on them for video chatting for conference calls searching the web for nearby restaurants, taking pictures of their travels the majority of people own cell phones now they and people rely on them more everyday.

Cell phones have become a part of everyday life & I could not imagine what it would be like having to live without what it would be like having to live without being away at school I still am able to keep in contact with the world secure in the human connection because people are able to have connection.

Evaluation by the Person in-charge in the Community/Habitation

Student Name: J. Shivan Mahesh
Registration No: 120130803064
Period of CSP: From: 8-9-2022 To: 25-10-2022

Date of Evaluation:

Name of the Person in-charge: G. Ganesh

Address with mobile number: Ganesh Patil (9502241104)

Please rate the student's performance in the following areas:

Please note that your evaluation shall be done independent of the Student's self-evaluation

Rating Scale: 1 is lowest and 5 is highest rank

1) Oral communication	1	2	3	4	5
2) Written communication	1	2	3	4	5
3) Proactiveness	1	2	3	4	5
4) Interaction ability with community	1	2	3	4	5
