CHAPTER 1: EXECUTIVE SUMMARY

The community service report shall have only a one-page executive summary. It shall include a brief description of the Community and summary of all the activities done by the student in CSP and five or more learning objectives and outcomes.

* Brief description of the community:-

Rama Krishna Beach also known as R.K. Beach is situated on the east coast of Bay of Bengal in Visakhapatnam, Andhra Pradesh. Rama Krishna beach is a beautiful spot for relaxation and pleasure is a natural beautiful scene. The roaring sound of sea gives enormous pleasure. It includes highlights of R.K. Beach the submarine museum, Visakha museum, Sri Rama Krishna mission Ashram, Kali mandir are best of R.K. Beach.

* Summary of the activities done:-

Social immersion is one of the field work methods. It refers to the mode of field work in which the researcher totally immersion himself / herself in the society to gain an in-dept knowledge about it. The term "immersion" is derived from the word "immerse", which means involve yourself in something or put something or yourself under in liquid completely.

CHAPTER 2: OVERVIEW OF THE COMMUNITY

About the Community/Village/Habitation including historical profile of the community/habitation, community diversity, traditions, ethics and values.

Brief note on Socio-Economic conditions of the Community/Habitation.

* About the community:-

India youth for society [IYFS] was established under 2001 with head quarters at visakhapatnam. The society has grown from a few nominal members to efficient group members along with volunteers and interns. Today, the society runs its awareness campaigns in visakhapatnam as well as Hyderabad.

* Historical profile of the community:-

India youth for society [IYFS] was established under the Andhra Pradesh Societies Registration Act, 2001 [Regd. NO. 331/2011] with head quarters at visakhapatnam. They aim to take a protective approach towards empowerment of youth, protection of the environment and providing employment opportunities. In this light, India youth for society [IYFS] launched "plastic free India" awareness campaign.

CHAPTER 3: COMMUNITY SERVICE PART

Description of the Activities undertaken in the Community during the Community Service Project. This part could end by reflecting on what kind of values, life skills, and technical skills the student acquired.

* Activities undertaken in the community during the community service project:-
The activities that we had done during our community service project. we team undertaken service like Swachh Bharat, Beach cleaning, plastic awareness, blood donation. Surveys to know the valuable services of them to know whether our performance is good or not. And we had come to know that not everyone empathy to each other, some of them are kind & loving by this community service project we know that real truth and emotion & feelings of the society directly. Hence come to know that the activity done through the service project may reflect on us compulsorily because of this survey on us which are learnt a lot.

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	Swachh Bharat cleanup in R.K. Beach	Identification of plastic waste mso	
Day -2	Swachh Bharat cleanup in our college premises	knowing the problems regarding garbages	
Day -3	swachh Bharat cleanup in NGO premises	Identified the maintenance of the environment	
Day -4	Awareness regarding cleaning surroundings in near areas	Questionnaire prepared to know the view of people	
Day -5	Awareness programme done by us in NGO surroundings	Questionnaire prepared to know the view of people	
Day -6	Survey regarding the beach cleanup.	Created survey questions to know their final opinion	

WEEKLY REPORT

WEEK - 1 (From Dt. 27.1.22 To Dt. 4.10.22)

Objective of the Activity Done:

Detailed Report: As a part of community service project, we took a beach to cleanup for the protection of our environment. In that we had started cleaning up our beach in certain distance as we can. we had identified some of people using dustbins and some not. The main identification in our project is "plastic" we seen a drastic reduction in beach road instead of plastic spoons, papers, cups etc., they're using wooden thing and 4 time wage of production.

And also given awareness regarding our surrounding cleanup and to maintain our environment clean & pure. The last thing we had performed a survey regarding Swachh Bharat in a certain areas to know and to show importance of Swachh Bharat to them at last they all agreed us they made us this programme to successful.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	plastic awareness in R.K. Beach	seen reduction of plastic in beach	<u>Pam</u>
Day -2	plastic awareness in beach premises	Maintaining their premises very neatly	<u>Rohit</u>
Day -3	plastic awareness in owl surroundings	Don't know their premises to maintain	<u>shreya</u>
Day -4	Blood Donation camp in Beach	setup a blood donation camp	<u>pu</u>
Day -5	Blood Donation camp in owl surroundings	some of aware about blood donation	<u>ad</u>
Day -6	Donating blood in blood bank	Donated blood to the bank	<u>ad</u>

WEEKLY REPORT

WEEK - 2 (From Dt. 4-10-22 to Dt. 11-10-22)

Objective of the Activity Done:

Detailed Report:

As a part of our community in our second week project we had done a awareness of plastic in beach and also in premises of beach.

Also campaigned at beach of blood donation camp and also in that premises. we find out that all the people are kind together one among some more aren't proper but many of them are kind and donated their blood and they communicated very well with us they worked with us all they have good kind hearted persons among us with good environment.

At last they held our programme successfull. lastly we went to blood bank to give a blood our team some had given their blood to the organisation they felt very heart warm with good facilities & hospitality.

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	Tree plantation in the premises of college.	joined our hands to save environment	<u>Aravind</u>
Day -2	Tree plantation in the premises of NGO	Good environment we had added little	<u>Aravind</u>
Day -3	Swachh Bharat awareness programme in schools	explained, we learnt some more not know that	<u>Aravind</u>
Day -4	Tree importance programme in college	found the people with less knowledge of swachh Bharat	<u>Aravind</u>
Day -5	Blood donation awareness programme in college	looked glared the donation camp	<u>Aravind</u>
Day -6	Blood donation awareness programme in school	learnt that less knowledge of donating blood	<u>Aravind</u>

WEEKLY REPORT

WEEK - 3 (From Dt 11-10-22 to Dt 18-10-22)

Objective of the Activity Done:

Detailed Report: As a part of our community service project at the last of our week we had done tree plantation which we meant to save the environment and to safeguard our lives also we had planned to plant trees in the premises of NGO. Our NGO which are combined is very good atmosphere & good environment so that we had added little more to take much experience of environment.

And also we had stopped to schools to give a awareness about Swachh Bharat also to the colleges to brief them about the importance of tree plantation. At last we had a last programme of awareness of blood donation among the people to far their fears.

Like wise we had completed our three weeks project successfully and our team felt very happy to serve the society.

CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation Attach the questionnaire prepared for the survey.

We had took beach cleanup regarding our project accordingly we took R.K. Beach, Visakhapatnam to we had mostly done awareness programmes and tree plantations regarding our project and we had donated blood and performed a blood donation camp. So we didn't done much survey but we had done a survey regarding the Swachh Bharat that questionnaire we are attaching here.

* Questionnaire prepared for the survey:-

- 1) How many dustbins are using?
- 2) Throwing wastes daily or not?
- 3) Any health issues relating to garbage?
- 4) Garbage are cleaning or not?
- 5) Are you cleaning your surroundings or not?
- 6) How you will keep your environment clean?
- 7) Do you support Swachh Bharat Mission?

Describe the problems you have identified in the community

As a part of our community service in Beach we had seen some of the problems pushed up. that means when municipal staff and volunteers of the beach cleaning the beach some of the people don't they using dustbins. because of less knowledge of the environment protection. some of them are good enough of their knowledge and doing their best to protect our environment. Also as a part of our community project service we had arranged a blood donation camp to help for the need of blood person there we finded that all aware of donating blood. hence we had explained them how to give, what will happen next. Then they agreed.

At the last we had done one survey regarding swachh Bharat by this we came know that all are keeping their surrounding & house clean but the problem is the implementing projects and services not coming to them likewise they are mean to said some of their problem with us.

Short-term and long-term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

*Short term action plan recommendation:-

⇒ The subject of our community service project we had recommended to implement more facilities to the beach environment to be attractive people more.

⇒ The government had to improve qualitative facilities for the tourism people.

⇒ The beach community had to grow more eating foods and playing tools and equipment more.

*Long term action plan recommendation:-

→ The activities of long term plan has to give good communicative proper.

→ The long term should be played scale importantly.

→ That should be look after by the mentors of the government should look after by the mentors of the proper way of looking to the good healthiest communication skills majority.

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

The community awareness programme has been as important and innovation step taken to important communication skill within a student, which is very important for their growth. The problems are taken known as we imparted with this and there can solution for their problems. The community program brought up.

We had initiated one step towards the clean up the beach around the kms as we can. Firstly we have to give awareness about the environment cleaning and have to give a board regarding safety measures of the beach to safeguard our lives beach. And also conducted blood donation camp also here we had initiated awareness camp regarding the blood donation and also kept our team donated blood to the bank. And also served our about the programme towards the campaign that we had done and also for the environment protection.

Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex., a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.

The Report shall be limited to 8-10 pages.

plastic is playing a vital role all over country. So we had focused on that by starting our community project with "plastic awareness" programmes by the help of NGO "INDRA YOUTH FOR SOCIETY".

The main aspect of our service is to remove the usage of plastic in a mini & drastic level. Hence we had started our service with R.K. Beach known as Ramakrishna Beach, VISA-Khapatnam. Our team had cleaned approximately certain kms through clearing and clearing the plastic and some of the wastage near ocean water which could harm the ocean and environment. And

we had committed certain events to clarify the cleanliness. The activities that we had done in community service project includes Swachh Bharat, Blood donation, Tree plantation, Survey had done. The brief about this is below in this paragraph.

* Swachh Bharat :-

Swachh Bharat mission [SBM], Swachh Bharat Abhiyan or Clean India Mission is a country wide campaign initiated by the government of India in 2014 to eliminate open defecation and improve solid waste management. It is a restructured version of the rural Bharat Abhiyan launched in 2009 carried through by Successor Manmohan Singh.

Initiated by the government of India, the mission aimed to achieve an "open defecation free" [ODF] India by 2 October 2019, the 150th Anniversary

of the birth of Mahatma Gandhi through construction of toilets. An estimated 89.9 million toilets were built in the period. "Clean India Mission": the campaign was officially launched on 2 October 2014 at the mission is aimed at progressing towards target 6.2 of the Sustainable Development Goals Number 6 established by the United Nations in 2015. At a rally in Champaran, the prime minister called the campaign *satyagrah* or *Swatchhagrah* in reference to Gandhi's Champaran *satyagrah* launched on 10 April 1916. The mission was split into two - Rural and Urban. In urban areas "SBM - Gramin" was financed and monitored through the ministry of drinking water and sanitation. whereas "SBM - Urban" was overseen by the ministry of housing and urban affairs." As a part of the campaign, volunteers, known as *swatchhagrah*, or "ambassadors of

cleanliness" promoted the construction of toilets using a popular method called community total sanitation at the village level. Other activities included national real-time monitoring and updates from non-governmental organizations such as waste workers.

* Tree plantation:-

Tree plantation means planting trees and plants. The purpose of tree plantation is save the endangered environment and to beautiful our life, Trees are valuable gifts of nature. They are known as best friends of every human being. They benefit us in various ways. The lives of men and other animals and insects are inconceivable without the existence of trees in the world. Trees absorb carbon dioxide and gives us oxygen with out which

No human being can live. Trees give us shade, medicine, food, fruits, furniture, fuel etc... Trees also keep the weather cool and cause rain fall - They also find soil and thus prevent erosion. The land of Bangladesh is suitable for the plantation of different kinds of trees. Trees can be planted in the waste areas of sea beaches.

The villagers use their unused land by planting trees. June and July are the proper time for planting trees in our country. Trees are part and parcel of our life. So, it is our duty to plant more trees and take care of them in order to maintain balance between man and nature. To make the country economically developed and to save the globe from green house effect, we should plant trees on a large scale tree plantation.

* BLOOD DONATION :-

A blood donation occurs when a person voluntarily has blood drawn and used for transfusions or made into biopharmaceutical medications by a process called fractionation. Donation may be of whole blood or of specific components only directly. Blood banks often participate in the collection process as well as the procedures that follow it.

Today in the developed world most blood donors are unpaid volunteers who donated blood for a community supply. In some countries, established supplies are limited and donors usually give blood when family or friends need a transfusion. Many donors donate for several reasons, such as a form of charity, general awareness regarding the demand for blood, increased confidence in oneself,

helping a personal friend or relative, and social pressure. potential donors are evaluated for anything that might make their blood unsafe to use. The screening includes testing for diseases that can be transmitted by a blood transfusion, including HIV and viral hepatitis. The donor must also answer questions about medical history and take a short physical examination to make sure the donation isn't hazardous to his or her health. The amount of blood drawn and the methods vary.

CHAPTER 6: RECOMMENDATIONS AND CONCLUSIONS OF THE MINI PROJECT

- ⇒ physical and psychological safety.
- ⇒ supportive relationship.
- ⇒ positive social norms.
- ⇒ opportunities to belong.
- ⇒ integration of family school and community efforts.

* Conclusion:-

Our main motto for doing this internship was to understand the existing problems in society to know the different segments of society, and to understand the need of having social sensitivity in us. Growing the sense of empathy and responsibility in us for society through the internship was one of the goal. The whole concept of this internship programme came from the observation that people are losing empathy each other.

Student Self-Evaluation for the Community Service Project

Student Name: KARRI. SATISH

Registration No: 120130803080

Period of CSP: From: To: 27-9-2022 TO 18-10-2022

Date of Evaluation:

Please rate your performance in the following areas:

Rating Scale: Letter grade of CGPA calculation to be provided

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5

EVALUATION

Internal Evaluation for the Community Service Project

Objectives:

- To facilitate an understanding of the issues that confront the vulnerable / marginalized sections of society.
- To initiate team processes with the student groups for societal change.
- To provide students an opportunity to familiarize themselves with the urban / rural community they live in.
- To enable students to engage in the development of the community.
- To plan activities based on the focused groups.
- To know the ways of transforming society through systematic programme implementation.

Assessment Model:

- There shall only be internal evaluation.
- The Faculty Guide assigned is in-charge of the learning activities of the students and for the comprehensive and continuous assessment of the students.
- The assessment is to be conducted for 100 marks.
- The number of credits assigned is 4. Later the marks shall be converted into grades and grade points to include finally in the SGPA and CGPA.
- The weightings shall be:
 - Activity Log 20 marks
 - Community Service Project Implementation 30 marks
 - Mini Project Work 25 marks
 - Oral Presentation 25 marks
- Activity Log is the record of the day-to-day activities. The Activity Log is assessed on an individual basis, thus allowing for individual members within groups to be assessed this way. The assessment will take into consideration the individual student's involvement in the assigned work.
- While evaluating the student's Activity Log, the following shall be considered -
 - a. The individual student's effort and commitment.
 - b. The originality and quality of the work produced by the individual student.
 - c. The student's integration and co-operation with the work assigned.
 - d. The completeness of the Activity Log.
- The assessment for the Community Service Project implementation shall include the following components and based on Weekly Reports and

Outcomes Description

- a. Details of the Socio-Economic Survey of the village/habitation.
- b. Problems identified.
- c. Community Awareness Programs organized.
- e. Suggested Short-Term and Long-Term Action Plan.
