CHAPTER 1: EXECUTIVE SUMMARY

The community service report shall have only a one-page executive summary. It shall include a brief description of the Community and summary of all the activities done by the student in CSP and five or more learning objectives and outcomes.

* Brief Description of the Community:-

Rama Krishna Beach also known as R.K. Beach is situated on the East Coast of Bay of Bengal in Visakhapatnam Andhra Pradesh. Rama Krishna Beach is a beautiful spot for relaxation and pleasure is a natural beautiful scene. The soothing sounds of sea gives endless pleasure. It includes highlights of R.K. Beach the submarine museum Visakha museum Sourama Krishna mission Ashram Kali mandir are best of R.K. Beach.

* Summary of the activities done:-

Social immersion is one of the field work methods. It refers to the mode of field work in which the researcher totally immerses himself/herself in the society to gain an in-depth knowledge about it. The term "immersion" is derived from the word "immerse", which means involve your self in something or put something or yourself under liquid completely.

CHAPTER 2: OVERVIEW OF THE COMMUNITY

About the Community/Village/Habitation including historical profile of the community/habitation, community diversity, traditions, ethics and values.

Brief note on Socio-Economic conditions of the Community/Habitation.

* About the Community:-

India youth for society (IYFS) was established under 2001 with headquarters at Visakhapatnam. The society has grown from a few nominal members to efficient group members along with volunteers and interns. Today the society runs its awareness campaigns in Visakhapatnam as well as Hyderabad.

* Historical profile of the Community:-

India youth for society (IYFS) was established under the Andhra Pradesh Societies Registration Act, 2001 (Regd NO 331/2011) with headquarters at Visakhapatnam. They aim to take a proactive approach towards empowerment of youth, protection of the environment and providing employment opportunities. In this light India youth for society (IYFS) launched plastic free India awareness campaign.

CHAPTER 3: COMMUNITY SERVICE PART

Description of the Activities undertaken in the Community during the Community Service Project. This part could end by reflecting on what kind of values, life skills, and technical skills the student acquired.

* activities undertaken in the community during the community service project:-

The activities that we had done during our community service project we team undertaken service like Swachh Bharat, Beach cleaning, plastic awareness, blood donation, survey's to know the valuable reviews of them to know whether our performance is good or not. And we had come to know that not everyone empathize to each other. Some of them are kind & loving by this community service project we know the real truth and emotion or feeling of the society directly. Hence come to know that the activity done through the service project may reflect on us compulsory because of this survey service we learnt a lot

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	Swachh Bharat Cleanup in R.K. Beach	Identification of plastic waste mble	Chinnu
Day - 2	Swachh Bharat cleanup in our college premises	Knowing the problems regarding garbage	Swati
Day - 3	Swachh Bharat Cleanup in NBO premises	Identified the maintenance of the environment	Pavan
Day - 4	Awareness regarding cleaning surrounding in near areas	Questionnaire prepared to know the view of people	Swati
Day - 5	Awareness programme done by us in NBO surrounding	Questionnaire prepared to know the view of people	Mitha
Day - 6	Survey regarding the beach cleanup	Created survey questions to know their final opinion	Prasanna

WEEKLY REPORT

WEEK - 1 (From Dt. 1.10.27 to Dt. 8.10.27)

Objective of the Activity Done:

Detailed Report: As a part of Community Service project we took a beach cleanup for the protection of our environment. In that we had started cleaning up our beach in certain distance as we can we had identified some of people using dustbins and some more not the main identification in our project is "plastic" we seen a drastic reduction in beach waste instead of plastic spoons, papers cups etc... they're using wooden things and 1 time usage of production.

And also given awareness regarding our surrounding cleanup and to maintain our environment clean & pure the last thing we had performed a survey regarding Swachh Bharat in a certain area to know and to them share importance of Swachh Bharat to them at last they all agreed as they made us this programme to successful

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	plastic Awareness in R.K. Beach	Seen reduction of plastic in beach	Lotho
Day - 2	plastic awareness in beach premises	maintaining their premises very neatly	Bhavani
Day - 3	plastic awareness in our surroundings	Don't know their premises to maintain	madhu
Day - 4	Blood donation camp in beach	Setup a blood donation camp	Hari
Day - 5	blood donation camp in our surroundings	Some of aware about blood donation	Kiran
Day - 6	Donating blood in blood bank	Donated blood to the bank	Ravi

WEEKLY REPORT

WEEK - 2 (From 10.10.22 to 16.10.22)

Objective of the Activity Done:

Detailed Report:

As a part of our Community in our second week project we had done a awareness of plastic in beach and also in premises of beach. Also campaigned at beach of blood donation camp and also in that premises we find out that all the people are kind together one among some more aren't proper but many of them are kind and donated their blood and they communicated very well with us they warmed with us all they have good kind hearted persons among us with good environment.

At last they held our programme successful lastly we went to blood bank to give a blood our team some had given their blood to the organisation they felt very heart warmth with good facilities & hospitality.

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	tree plantation in the premises of college	Joined our hands to save environment	Riya
Day - 2	tree plantation in the premises of NUTO	Good environment we had added little	Raghu
Day - 3	Swachh Bharat awareness programme in schools	Explained we learnt some more not know that	Laxmi
Day - 4	tree importance programme in college	found the people with less knowledge of Swachh Bharat	Rajawar
Day - 5	blood donation awareness programme in college	looked glared the donation camp	Pallavi
Day - 6	blood donation awareness programme in schools	learnt that less knowledge of donating blood	Nandini

WEEKLY REPORT

WEEK - 3 (From Dt. 14/10/22 to Dt. 23/10/22)

Objective of the Activity Done:

Detailed Report:

As a part of our Community service project at the last of our week we had done tree plantation which we meant to have the environment and to safeguard our lives also we had planned to plant trees in the premises of Noida our Noida which we combined is very good atmosphere & good environment so that we had added little more to make much experience of environment.

And also we had stepped to schools to give a awareness about Swachh Bharat also to the colleges to brief them about the importance of tree plantation. At last we had a last programme of awareness of blood donation among the people to far their fears.

Like wise we had completed our three weeks project successfully and our team felt very happy to serve the society.

CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation Attach the questionnaire prepared for the survey.

We had took beach to cleanup regarding our project accordingly we took RK Beach visakhapatnam to we had mostly done awareness programmes and three plantations regarding our project and we had donated blood and performed a blood donation camp. So we didn't done much survey but we had done 1 survey regarding the Swachh Bharat that questionnaire we are attaching here

* Questionnaire prepared for the survey:-

1. How many dustbins are using?
2. Throwing waste daily or not?
3. Any health issues relating to garbage?
4. Garbage are cleaning or not?
5. Are you cleaning your surroundings or not?
6. How you will keep your environment clean?
7. Do you support Swachh Bharat mission?

Describe the problems you have identified in the community

As a part of our Community Service in Beach we had seen some of the problems pushed up. That means when municipal staff and volunteers of the beach cleaning the beach some of the people don't they using dustbins because of their less knowledge of the environment protection. Some of them are good enough of their knowledge and doing their best to protect our environment. Also as a part of our Community Project service we had arranged a blood donation camp to help for the need of blood person there we found that all aware of donating blood. Hence we had explained them how to give what will happen next then they agreed. At the last we had done one survey regarding Swachh Bharat by this we come to know that all are keeping their surround area house clean but the problem is the implementing projects and services not coming to them like wise they are mean to said some of their problems with us.

Short-term and long-term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

* short term action plan recommendation:-

- The outlist of our community service project we had recommended to implement more facilities to the beach environment to be attractive people more
- The government had to improve more qualitative facilities for the tourism people.
- The beach community had to grow more eating joints and playing troops and equipment more

* long term action plan recommendation:-

- The activities of long term plan has to give good communicative proper.
- The long term should be played role importantly
- That should be look after by the mentors or the government should look after the proper way of looking to the good healthiest communicative skills majordy

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

The Community awareness programme has been an important and innovative step taken to impart communication skills within a student which is very important for their growth. The problems are known as we imparted with this and there can be solutions for their problems. The community program brought up

we had initiated one step towards the cleanup of the beach around the km as we can firstly we have to give awareness about the environment cleaning and have to give a board regarding safety measures of the beach to safeguard our lives beach.

And also conducted blood donation camp also there we had initiated awareness camp regarding the blood donation and also kept our team donated blood to the bank. And also surveyed our about the programme towards the campaign that we had done and also for the environment protection.

Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex., a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.

The Report shall be limited to 8-10 pages.

plastic is playing a vital role all over our country so we had focused on that by starting our community project with "plastic Awareness" programmes by the help of NRI "INDIA YOUTH FOR SOCIETY" the main aspect of our service is to remove the usage of plastic in a mini or drastic level. Hence we had started our service with R.K. Beach known as Ramakrishna Beach, Visakhapatnam. Our team had claimed approximately certain kms through clearing and clearing the plastic and some of the wastages near ocean water which could harm the ocean and environment. And we had committed certain events to clarify the cleanliness.

The activities that we had done in community service project includes Swachh Bharat, Blood donation, tree plantation survey had done. The brief about this is below in this paragraph

* Swachh Bharat :-

Swachh Bharat mission (SBM), Swachh Bharat Abhiyan or clean India mission is a country wide campaign initiated by the government of India in 2014 to eliminate open defecation and improve solid waste management. It is a restructured version of the Nirmal Bharat Abhiyan launched in 2009, carried through by successor manmohan singh

Initiated by the government of India the mission aimed to achieve an "open defecation free" (ODF) India by 2 October 2019 the 150th Anniversary of the birth of Mahatma Gandhi through construction of toilets. An estimated 89.9 million toilets were built in the period "Clean India mission" the campaign was officially launched on 2 October 2014 at

The mission is aimed at progressing towards target 6.2 of the Sustainable Development Goals Number 6 established by the United Nations in 2015. At a rally in Champaran, the prime minister called the campaign 'Swachh Bharat' or 'Swachhagraha' launched on 10 April 2014. The mission was split into two - rural and urban. In rural areas 'SBM - Gramin' was financed and monitored through the ministry of drinking water and sanitation whereas 'SBM - Urban' was overseen by the ministry of Housing and urban affairs. As a part of the campaign, volunteers, known as 'Swachhagrahis' or 'ambassadors of cleanliness' promoted the construction of toilets using a popular method called 'Community-led total sanitation' at the village level. Other activities included national real-time monitoring and updates from non-governmental organizations such as waste warriors.

* tree plantation:-

tree plantation means planting trees and plants. The purpose of tree plantation is to save the endangered environment and to beautify our life. Trees are valuable gifts of nature. They are known as best friends of every human being. They benefit us in various ways and insects are inconceivable without the existence of trees. Trees are inseparable with life in the world. Trees absorb carbon dioxide and give us oxygen without which no living being can live. Trees give us shade, medicine, food, fruits, furniture, fuel etc., trees also keep the weather cool and cause rainfall. The climate of Bangladesh is suitable for the plantation of different kinds of trees. Trees can be planted in the vast areas of sea beaches. The villagers use their unused land by

planting trees. June and July are the proper time for planting trees in our country. Trees are part and parcel of our life so it is our duty to plant more trees and take care of them in order to maintain balance between man and nature. To make the globe free from green house effect we should plant trees on a large scale tree plantation.

* Blood Donation:-

A blood donation occurs when a person voluntarily has blood drawn and used for transfusions or made into biopharmaceutical medications by a process called fractionation. Donation may be of whole blood or of specific components only directly. Blood banks often participate in the collection process as well as the procedures that follow it.

Today in the developed world most blood donors are unpaid volunteers who donate blood for a community supply. In some countries established supplies are limited and donors usually give blood when family or friends need a transfusion. Many donors donate for several reasons, such as a form of charity, general awareness regarding the demand for blood, increased confidence in oneself, helping a personal friend. Donors are evaluated for anything that might make their blood unsafe to use. The screening includes testing for diseases that can be transmitted by a blood transfusion, including HIV and viral hepatitis. The donor must also answer questions about medical history and take a short physical examination to make sure the donation isn't hazardous to his or her health. The amount of blood drawn and the methods vary.

- ⇒ physical and psychological safety
- ⇒ supportive relationship
- ⇒ positive social norms
- ⇒ opportunities to belong
- ⇒ Integration of family school and community efforts

* Conclusion:-

our main motto for doing this internship was to understand the existing problems in society to know the different segments of society and to understand the need of having social sensitivity in us. Growing the sense of empathy and responsibility in us for society through the internship was one of the goal. The whole accept of this internship program came from the observation that people are losing empathy each other.
