CHAPTER 6: RECOMMENDATIONS AND CONCLUSIONS OF THE MINI PROJECT

This survey is a unique examination of the modern phone & mobile technology use & utility

This study facilitated data collection & an exciting pattern of mobile phone usage.

Mobile phone technology by itself is intended aid for academic work and disrupt their daily activities

Despite the positive benefits of using calls & people, cell phone have completely changed the world. People now use them for leisure time, business, school, and so much more, cell phone are not such cell phone any more people rely on them for video chatting & conference call, downloading the web to nearby restaurant, taking pictures & this travels, using a GPS tracking systems etc.... The majority of the people own cell phone now a days and people rely on them more than ever.

Cell phone have become a sort of mobile everything life and I could not imagine what it would be like living to live, without having a cell phone. Basic way at school I still am able to keep in contact with family and grandparents although with an exception. The cell phone is an incredible invention that has altered our lives forever.
