**PROJECT WORK SUBMITTED TO MRS. A.V.N COLLEGE,
AFFILIATED TO ANDHRA UNIVERSITY, VISAKHAPATNAM FOR
THE PARTIAL FULFILMENT OF DEGREE OF**

BACHELOR OF SCIENCE

2020 – 2023

DECLARATION

I, SOMIREDDY RAMESH , Student of BSc – M.P.C, Mrs. A.V.N College, affiliated to Andhra University here by declared that this project entitled “**Survey on Screening report of WATER POLLUTION at PORT area**” is a genuine work carried out by me under the guidance of **MSS.B.VEENITHA** lecturer in Chemistry, MRs A.V.N College, Visakhapatnam, Andhra Pradesh. Furthermore, this project work was not submitted to any other institution or University for awarding any Degree.

DATE: 21-03-2013

Instructions to Students for Community Service Project

Please read the detailed Guidelines on Community Service Project hosted on the website of AP State Council of Higher Education <https://apsche.ap.gov.in>

Link:

<https://apsche.ap.gov.in/Pdf/Guidelines%20for%20the%20OJT%20Internship%20Community%20Service%20Project.pdf>

1. It is mandatory for all the students to complete 2 months (180 hours) of Community Service Project as a part of the 10-month mandatory internship/on the job training.
2. Consider yourself a committed volunteer in the community, you work with.
3. Every student should identify the village/community/habitation for Community Service Project (CSP) in consultation with the College Principal/the authorized person nominated by the Principal.
4. Report to the community/habitation as per the schedule given by the College. You must make your own arrangements for transportation to reach the community/habitation.
5. You will be assigned a Faculty Guide from your College. He/She will be creating a WhatsApp group with your fellow volunteers. Post your daily activity done and/or any difficulty you encounter during the programme.
6. You should maintain punctuality in attending the CSP. Daily attendance is compulsory.
7. You are expected to learn about the community/habitation and their problems.
8. Know the leaders and the officials of the community/habitation.
9. While in the project, always wear your College Identity Card.
10. If your College has a prescribed dress as uniform, wear the uniform daily.
11. Identify at least five learning objectives in consultation with your Faculty Guide. These learning objectives can address:
 - Information about the community, including the realities and

problems of the society.

- Need for creating awareness on socially relevant aspects/programs.
 - Acquiring specific Life Skills.
 - Learning areas of application of knowledge and technologies related to your discipline.
 - Identifying developmental needs of the community/habitation.
12. Practice professional communication skills with team members, and with the leaders and officials of the community. This includes expressing thoughts and ideas effectively through oral, written, and non-verbal communication, and utilizing listening skills.
 13. **Be regular in filling up your Program Book. It shall be filled up in your own handwriting. Add additional sheets wherever necessary.**
 14. At the end of Community Service Project, you shall be evaluated by the person in-charge of the community/habitation to whom you report to.
 15. There shall also be an evaluation at the end of the community service by the Faculty Guide and the Principal.
 16. Do not indulge in any political activities.
 17. Ensure that you do not cause any disturbance to the inhabitants or households during your interaction or collection of data.
 18. Be cordial but not too intimate with the people you come across during your service activities.
 19. You should understand that during this activity, you are the ambassador of your College, and your behavior during the community service programme is of utmost importance.
 20. If you are involved in any discipline related issues, you will be withdrawn from the programme immediately and disciplinary action shall be initiated.
 21. Do not forget to keep up your family pride and prestige of your College.
 22. Remember that you are rendering valuable service to the society and your role in the community development will become part of the history of the community.

Community Service Project Report

Submitted in accordance with the requirement for the degree of...B.Sc...

Name of the College: M.S. A.V.N. College

Department: Chemistry

Name of the Faculty Guide: B. Vineetha

Duration of the CSP: From 12-9-22 To 12-11-22

Name of the Student: Somireddy. Ramesh

Programme of Study: Water Pollution

Year of Study: 2020-2023

Register Number: 720130805073

Date of Submission:

Student's Declaration

I, S. Ramesh, a student of M.P.C Program,
Reg. No. 720130805093 of the Department of chemistry,
Mrs. A.V.N. college College do hereby declare that I have completed
the mandatory community service from 12-9-22 to 12-11-22 in
port area (Name of the Community/Habitation) under the Faculty
Guideship of B. Vinetha, (Name of the Faculty Guide), Department
of English in A.V.N College

Certificate from Official of the Community

This is to certify that S. Ramesh (Name of the Community Service Volunteer) Reg. No 920130805093 of M.S.A.V.A. College (Name of the College) underwent community service in port Area (Name of the Community) from 12-9-22 to 12-11-22. The overall performance of the Community Service Volunteer during his/her community service is found to be _____ (Satisfactory/Good).

Authorized Signatory with Date and Seal

Acknowledgements

It is really a matter of pleasure for me to get an opportunity to thank all the persons who contributed directly (or) indirectly for the successful completion of the project report, a study on "water pollution".

Also I am thankful to my faculty guide from H.S. A.V.V. college, Visakhapatnam, for being a source of support during this training period.

Somireddy. Ramesh
(720130805073)

CHAPTER 1: EXECUTIVE SUMMARY

The community service report shall have only a one-page executive summary. It shall include a brief description of the Community and summary of all the activities done by the student in CSP and five or more learning objectives and outcomes.

The Present day study "Water Pollution" in "N.G.R. colony": about to list out the poor city visakhapatnam. which have several types of water pollutions, are there. Industrial sites, wastes water world are major contributors to water pollution and also another causes include to water pollution.

The whole colony was divided into "70" quadrates of 700×400 meters. The surroundings untreated waste water directly contributes cholera, typhoid, fever and rita virus.

CHAPTER 2: OVERVIEW OF THE COMMUNITY

About the Community/Village/Habitation including historical profile of the community/habitation, community diversity, traditions, ethics and values.

Brief note on Socio-Economic conditions of the Community/Habitation.

N.S. R. colony is located in Visakhapatnam district in the state of Andhra Pradesh, India.

Water pollution is any chemical, physical change in the quality of water that has harmful effect of water pollution. Water pollution sources is organic and inorganic waste mine drainage, modern washing powders and they chemical pollution ground water pollution.

Nutrient pollution which includes nitrates phosphates is leading type of contamination in fresh water.

CHAPTER 3: COMMUNITY SERVICE PART

Description of the Activities undertaken in the Community during the Community Service Project. This part could end by reflecting on what kind of values, life skills, and technical skills the student acquired.

In this area water pollution degrades the quality of the water in the water bodies. Many diseases can spread through waste water cause the disease of fever malaria.

Water with increase in the amount of organic waste in water bacteria use up the available oxygen.

surface water and ground water are both important sources for community water supply needs.

waste water directly contributes cholera, typhoid fever, for water pollution causes some diseases.

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	visited the study area and divided into colony four divisions	learned about water pollution types	sd
Day - 2	Identify and tabulated the list of home members	studied types of pollution wastages	sd
Day - 3	Identify and tabulate the number of members the line 1 and 2	we locate the shortage of water bodies	sd
Day - 4	Identify the tabulate the colony in line 3 & 4	we observed note of water bodies pollution	sd
Day - 5	Identify and the numbers list of 5th line	studied water pollution of causes	sd
Day - 6	studied the abundance of water pollution in whole area of N.T.R. colony	learned identification of water pollution	sd

WEEKLY REPORT

WEEK - 1 (From Dt. 12.09.22 to Dt. 18.09.22)

Objective of the Activity Done:

Detailed Report:

The waste from house holds, factories (or) agricultural lands, gets discharged into rivers, our lakes. This waste can either be in the form of liquid, waste garbage (or) sewage. The harmful chemical coming out of this waste can damage aquatic life.

Not just the aquatic life, even when the humans end up drinking polluted water they make themselves vulnerable to various life threatening illnesses like hepatitis, cholera, - typhoid, and many other water born disease.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	The data obtained in 1st week is tabulated and studied	learned about water pollution in the community	<u>Pan</u>
Day - 2	using the data and awareness camp has been conducted in the community	learned about how to make a campaign	<u>Pan</u>
Day - 3	By the campaign create awareness about the water pollution	learned about causes of water pollution in area	<u>Pan</u>
Day - 4	The campaign has been continued and created awareness about value of pollution.	learned about various threats facing by pollution in the community area	<u>Pan</u>
Day - 5	The campaign has been continued and created awareness about increasing water pollution in Area	learned about various threats facing by pollution in community area	<u>Pan</u>
Day - 6	The campaign has been continued and created awareness about protective plants in the area	learned about protective measures taken to rescue of water pollution	<u>Pan</u>

WEEKLY REPORT

- WEEK - 2 (From Dt. 21.12.22 to Dt. 28.12.22)

Objective of the Activity Done:

Detailed Report:

The pollution happens when water flowing down streams get contaminated at different points. Rivers may get polluted by sewage and industrial effluents. Waste water goes in the oceans, rivers etc.

In the fact water especially fresh water is one of the most important elements in the world. However, with increasing levels of water pollution.

The oxygen level in polluted water is lower this causes the death of several organisms. Drinking water should be safe for consumption water is required in the body and depends on several factors including maintaining health.

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the dally activity	Learning Outcome	Person In-Charge Signature
Day - 1	The data obtained 1st and 2nd weeks is analysed	learnt about how to prepare a data analysis	<i>Cly</i>
Day - 2	The analysed data is written on the paper in required manner	learnt about methods of data presentation.	<i>Ck</i>
Day - 3	The Pictures has been collected which were taken during campaign	learnt about methods of data presentation	<i>Cly</i>
Day - 4	Pie charts and tabulated forms were prepared	learnt about Preparation of Tabular forms	<i>Ck</i>
Day - 5	Information obtained is updated in the data Report	learnt about information updated in the data request.	<i>Ck</i>
Day - 6	The Reported data self verified once again	learnt about how to prepare and report data analysis	<i>Ck</i>

WEEKLY REPORT

WEEK - 3 (From Dt. 21.10.22 to Dt. 27.10.22)

Objective of the Activity Done:

Detailed Report:

Water pollution is the cause of our undisciplined action and irresponsibility we humans are only creating problems that consequently water is essential to our body.

If cause such sickness and diseases that will affect our health. Let us not destroy it nor pollute it. We need and we should help same as our mother nature.

The pollution happens when water flowing down streams get contaminated at different point water not only our thirst but also plays a critical role in keeping us healthy.

ACTIVITY LOG FOR THE FORTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	The community project report programme book were downloaded and printout has been.	People in shudal years using minerals to drink.	S. Shivaji
Day -2	The data obtained and prepared literature were entered in the program book	facilities should be created	S. Shivaji
Day -3	The pictures taken during project were printed and fixed in program book	Awareness should be created in N.T.R. colony	S. Shivaji
Day -4	The pictures taken during project were printed and fixed program book	People are in N.T.R. colony are using filter	S. Shivaji
Day -5	The programme book papers are arranged in order and verified once again	Peoples are suffering with diseases due to drinking	S. Shivaji
Day -6	The programme book has given for binding & etc work	People are affordable to drink municipal water	S. Shivaji

WEEKLY REPORT

WEEK - 4 (From Dt. 18.10.22, to Dt. 25.10.22.)

Objective of the Activity Done:

Detailed Report:

Ground water it is a source of a water that is under the land surface. It is accessible by wells tube wells and hand pumps.

surface water this type of source is found on the surface of the earth like ponds, rivers etc. Rain water - it is the major source of water from rain. Chlorine and chloramine are the major used in public water systems.

safe and readily available drinking water is key to public health. community. water systems and water safety plans are important ways to ensure the health of a community.

- ACTIVITY LOG FOR THE FIFTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	Few People are drinking mineral water in sivalingam	Peoples in N.T.R. Colony Purifying mineral water	Teja
Day - 2	some people are receiving the municipal water	Drinking municipal water in their area	Teja
Day - 3	many Peoples are often-ditile to drink the ground water	They are affordable to drink the ground water	Teja
Day - 4	some Peoples are suffering with joint Pains but drinking water	Drinking blutler water	Teja
Day - 5	Many Peoples are facing Poor water facilities in N.T.R. colony.	good facilities are should be created	Teja
Day - 6	Many Peoples are getting the water from outside due to water Pollutant.	Awareness should be created here N.T.R. Colony	Teja

CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation Attach the questionnaire prepared for the survey.

oxygen depletion Pollution:-

Another consequence of algal blooms is their consumption of oxygen supplies. This means that those species which depend upon oxygen to survive are killed off, while anaerobic ones thrive. Some anaerobic microorganisms are capable of producing ammonia, sulphides and other harmful toxins, which can make the water even more dangerous to animals and humans too....

surface water Pollution:- Referring to all water sources above ground, such as rivers, lakes, seas and oceans. surface water pollution can occur both naturally, accidentally and intentionally.

Describe the problems you have identified in the community

- * N.T.R colony is rich in water resources have several benefits values most of the people in the area don't know their values.
- * Due to this they are refusing to protect them.
- * The people in this study area losing several valuable resources contaminated due to this improper conservation.
- * Due to insufficient knowledge the people in the area are refusing to conserve the plants and lost our pure water sources.
- * In the area of N.T.R. colony people doesn't know the value of water.
- * Since the water pollution in the studied area are high level and their quantity is being shortage.

Short-term and long-term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

* Pick up litter and throw it away in
garbage can.

* blow (or) sweep fertilizer back onto the grass.
If it gets onto paved areas, don't put
fertilizer on the grass right before it rains.

The chemicals will wash into storm drains and
water ways.

* wash our vehicles (or) outdoor equipment where
it can blow to gravel (or) grassy area instead of
a street.

* Muck (or) compost grass (or) yard waste.

The whole colony was facing the problem of
water pollution. Those peoples effected of there
pollution side effects, it like palia, and
typhoid etc. ..

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

The solution of these problem one and only awareness. about water importance, and how to pollution afraid resources and how to save our water bodies.

Water pollution:- water pollution is the contamination of water in water bodies such as rivers, oceans, lakes and swamps, this means that one (or) more substance have built up in water to extent of causing problems to people, animals and plants.

Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex., a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.)

The Report shall be limited to 8-10 pages.

causes of water pollution:-

There are numerous causes of water pollution. The main ones are, listed below:- Types of sources.

1. Point source:-

* It is directly to be to influence. Here Pollutant travels directly from source to water.

* Point source are easy to regulate

* The main source of water pollution are as follows.

*

* community waste water, include discharges from houses, commercial and industrial establishments connect to public sewerage system.

2. Industrial waste:- The industries discharge several inorganic and organic pollution which may have slightly toxic to the living beings.

3. Agricultural sources:-

* Fertilizers contain major plant nutrients such as nitrogen, phosphorus and potassium

* excess fertilizers so many reach the ground water by leaching (or) may be mixed with surface water as rivers, lakes and ponds by runoff and drainage.

* Pesticides include, insecticides, fungicides, herbicides, nematocides, rodenticides and soil fumigants.

They contain a wide range of chemicals such as chlorinated hydrocarbons.

4: underground water pollution:-

In india at many places, the ground water is threatened with contamination due to seepage from industrial and municipal waste to and effluents sewage channels and agricultural run off.

5. Marine Pollution:-

* oceans are the ultimate sink of all natural and manmade pollutants.

* rivers discharge their pollutants into the sea, the sewerage and garbage of coastal cities are also dumped into the sea.

6:- Garbage:- plastics:- plastics are non-bio-degradable, mass plastic clog water bodies and contaminate water.

7:- urbanization:- urbanisation is a key factor in increasing the amounts of water pollution.

8:- pumping solid waste:- Humans, after carelessly dump their in the sea near rivers.

9:- oil spill:- Accidental oil spills have devastating effect on sea.

10:- dissolved solid waste:- Human polluting gases in their air can dissolve into salt and freshwater and pollute it.

Control Measures:-

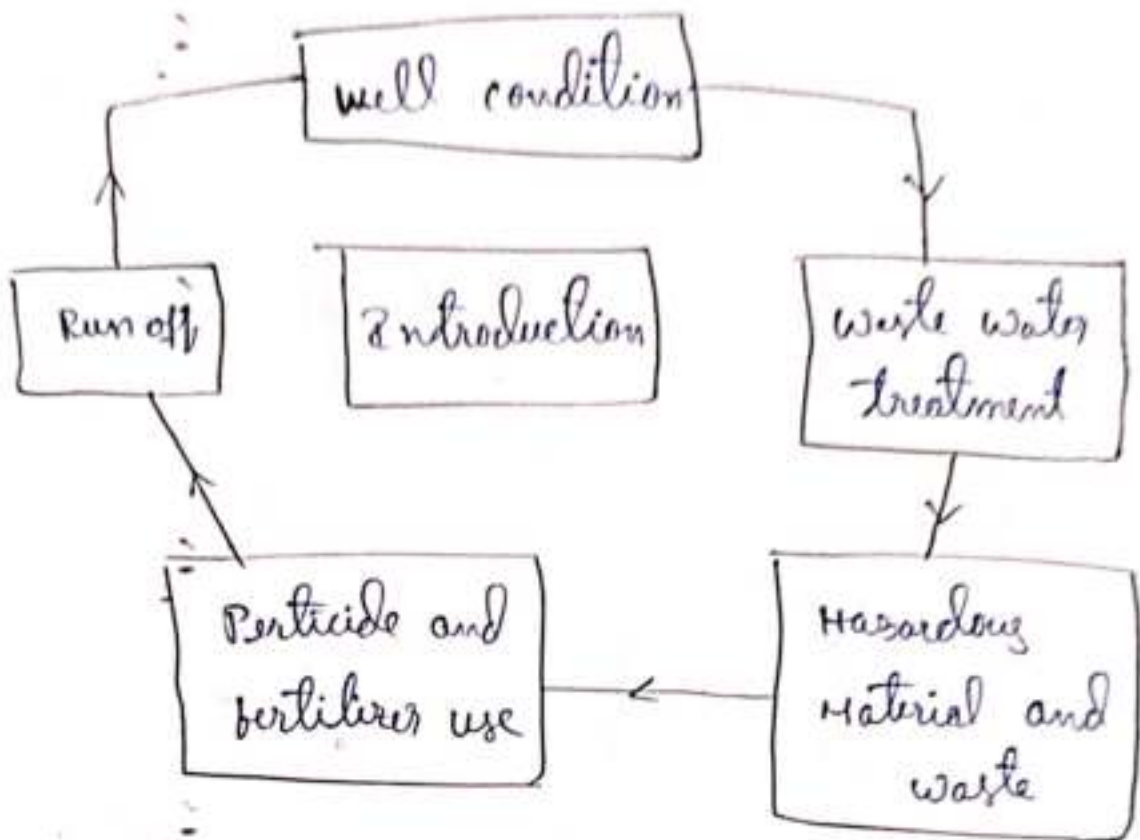

- * Repairing purifiers
- * Recycle
- * Hot water should be cooled before released from the power plants.

Ground water Pollution:-

Any addition of undegradable substance to ground water caused by human activities is considered to be contamination it has after been assumed that contaminants left on (or) under the ground will stay here.

source of ground water pollution:-

- * Most concern over ground water contamination has centered on pollution associated with human activities.
- * Human ground water contamination has centered on to waste disposal system, land disposal of solid.
- * municipal waste water, waste water impoundments and spreading of sludge, brine disposed from the petroleum industry.
- * mine waste, deep-cell herbicides and animal waste are agricultural source of ground.

Student Self-Evaluation for the Community Service Project

Student Name: Somireddy. Ramesh

Registration No: 920130805093

Period of CSP: From: To:

Date of Evaluation:

Please rate your performance in the following areas:

Rating Scale: Letter grade of CGPA calculation to be provided

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5
8	Work Plan and organization	1	2	3	4	5
9	Professionalism	1	2	3	4	5
10	Creativity	1	2	3	4	5
11	Quality of work done	1	2	3	4	5
12	Time Management	1	2	3	4	5
13	Understanding the Community	1	2	3	4	5
14	Achievement of Desired Outcomes	1	2	3	4	5
15	OVERALL PERFORMANCE	1	2	3	4	5

Date: 20-03-23

Signature of the Student

Evaluation by the Person in-charge in the Community/Habitation

Student Name: S. Ramesh
Registration No: A201308050A3
Period of CSP: From: To:
Date of Evaluation:
Name of the Person in-charge:
Address with mobile number: 9989138471, N.S.R. Colony, Poil area

Please rate the student's performance in the following areas:

Please note that your evaluation shall be done independent of the Student's self-evaluation

Rating Scale: 1 is lowest and 5 is highest rank

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5

Internal Evaluation for the Community Service Project

Objectives:

- To facilitate an understanding of the issues that confront the vulnerable / marginalized sections of society.
- To initiate team processes with the student groups for societal change.
- To provide students an opportunity to familiarize themselves with the urban / rural community they live in.
- To enable students to engage in the development of the community.
- To plan activities based on the focused groups.
- To know the ways of transforming society through systematic programme implementation.

Assessment Model:

- There shall only be internal evaluation.
- The Faculty Guide assigned is in-charge of the learning activities of the students and for the comprehensive and continuous assessment of the students.
- The assessment is to be conducted for 100 marks.
- The number of credits assigned is 4. Later the marks shall be converted into grades and grade points to include finally in the SGPA and CGPA.
- The weightings shall be:

○ Activity Log	20 marks
○ Community Service Project Implementation	30 marks
○ Mini Project Work	25 marks
○ Oral Presentation	25 marks
- Activity Log is the record of the day-to-day activities. The Activity Log is assessed on an individual basis, thus allowing for individual members within groups to be assessed this way. The assessment will take into consideration the individual student's involvement in the assigned work.
- While evaluating the student's Activity Log, the following shall be considered -
 - a. The individual student's effort and commitment.
 - b. The originality and quality of the work produced by the individual student.
 - c. The student's integration and co-operation with the work assigned.
 - d. The completeness of the Activity Log.
- The assessment for the Community Service Project implementation shall include the following components and based on Weekly Reports and

Outcomes Description

- a. Details of the Socio-Economic Survey of the village/habitation.
- b. Problems identified.
- c. Community Awareness Programs organized.
- e. Suggested Short-Term and Long-Term Action Plan.
