Instructions to Students for Community Service Project

Please read the detailed Guidelines on Community Service Project hosted on the website of AP State Council of Higher Education <https://apsche.ap.gov.in>

Link:

<https://apsche.ap.gov.in/Pdf/Guidelines%20for%20the%20OJT%20Internship%20Community%20Service%20Project.pdf>

1. It is mandatory for all the students to complete 2 months (180 hours) of Community Service Project as a part of the 10 month mandatory internship/on the job training.
2. Consider yourself as a committed volunteer in the community, you work with.
3. Every student should identify the village/community/habitation for Community Service Project (CSP) in consultation with the College Principal/the authorized person nominated by the Principal.
4. Report to the community/habitation as per the schedule given by the College. You must make your own arrangements of transportation to reach the community/habitation.
5. You will be assigned with a Faculty Guide from your College. He/She will be creating a WhatsApp group with your fellow volunteers. Post your daily activity done and/or any difficulty you encounter during the programme.
6. You should maintain punctuality in attending the CSP. Daily attendance is compulsory.
7. You are expected to learn about the community/habitation and their problems.
8. Know the leaders and the officials of the community/habitation.
9. While in project, always wear your College Identity Card.
10. If your College has a prescribed dress as uniform, wear the uniform daily.
11. Identify at least five learning objectives in consultation with your Faculty Guide. These learning objectives can address:
 - Information about the community, including the realities and problems of the society.
 - Need for creating awareness on socially relevant aspects/programs.
 - Acquiring specific Life Skills.
 - Learning areas of application of knowledge and technologies related to your discipline.
 - Identifying developmental needs of the community/habitation.

12. Practice professional communication skills with team members, and with the leaders and officials of the community. This includes expressing thoughts and ideas effectively through oral, written, and non-verbal communication, and utilizing listening skills.
13. **Be regular in filling up your Program Book. It shall be filled up in your own handwriting. Add additional sheets wherever necessary.**
14. At the end of Community Service Project, you shall be evaluated by the person in-charge of the community/habitation to whom you report to.
15. There shall also be evaluation at the end of the community service by the Faculty Guide and the Principal.
16. Do not indulge in any political activities.
17. Ensure that you do not cause any disturbance to the inhabitants or households during your interaction or collection of data.
18. Be cordial but not too intimate with the persons you come across during your service activities.
19. You should understand that during this activity, you are the ambassador of your College, and your behavior during the community service programme is of utmost importance.
20. If you are involved in any discipline related issues, you will be withdrawn from the programme immediately and disciplinary action shall be initiated.
21. Do not forget to keep up your family pride and prestige of your College.
22. Remember that you are rendering valuable service to the society and your role in the community development will become part of the history of the community.

The overall performance of the Community Service Volunteer during his/her community service is found to be Good..... (Satisfactory/Good).

Authorized Signatory with Date and Seal

ACKNOWLEDGEMENTS

I wish to express my gratitude to those who extended their valuable co-operation and contribution towards the project.

I would like to thank my project mentor Ms. Mallika madam for her valuable time and continued assistance for the successful completion of the project.

I would also like to express my gratitude to Ms. Shankar Narayan Sir, MRS. A.V.N college management for facilitating this project and providing his guidance through out the duration of the project.

I would also like to thank the faculty and staff of the institute, family members and my dear friends for their support to successful completion of the project.

CHAPTER 1: EXECUTIVE SUMMARY

The community service report shall have only a one-page executive summary. It shall include a brief description of the Community and summary of all the activities done by the student in CSP and five or more learning objectives and outcomes.

In each Executive Summary, the term "members" refers to individuals enrolled in the Senior Care program. Senior Care improves the health of qualified necessary benefits and services are available. Qualifying include certain low-income children, seniors, individuals who are disabled, those being treated for breast or cervical cancer and those seeking family planning services.

The data provided in these reports may be conservative due to use of claims data. Members are only identified as having the select chronic condition if they sought care and had at least two or more paid claims that included a diagnosis code for the select chronic condition.

child

members who are 18 years old or younger at the end of the state fiscal year.

CHAPTER 2: OVERVIEW OF THE COMMUNITY

- About the Community/Village/Habitation including historical profile of the community/habitation, community diversity, traditions, ethics and values.
- Brief note on Socio-Economic conditions of the Community/Habitation.

Chronic diseases are defined broadly as conditions that last \pm year or more and require ongoing medical attention or limit activities of daily living or both. Chronic diseases such as heart diseases, cancer, and diabetes are the leading causes of death and disability in the United States. They are also leading drivers of the nation's trillion in annual health care costs.

Any chronic diseases are caused by a short list of risk behaviors.

- Tobacco use and exposure to second hand smoke.
- Poor nutrition including diets low in fruits and vegetables and high in sodium and saturated fats.

CHAPTER 3: COMMUNITY SERVICE PART

Description of the Activities undertaken in the Community during the Community Service Project. This part could end by reflecting on what kind of values, life skills, and technical skills the student acquired.

The World Health Organization defines chronic diseases as diseases of long duration and generally slow progression.

"Common them" found in other definitions state that chronic diseases.

- have many causes but often share common risk factors.
- usually begin slowly and develop gradually over time.
- can occur at any age, although they become more common in later life.
- chronic diseases impact the health of the population as well as the sustainability of the health care system - over half of New Zealand and Canadian residents aged 12 years and older have at least one chronic disease.

ACTIVITY LOG FOR THE FIRST WEEK

DAY & DATE	BRIEF DESCRIPTION OF THE DAILY ACTIVITY	LEARNING OUTCOME	Person In-charge Signature
Day - 1	T. ESWARAMMA Age: 36 Topic: chronic diseases ADDRESS: velaupeta Debagarden's viskaptanam 530020	Eating a healthy food over all the day.

WEEKLY REPORT

WEEK - 5 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

I have many health conditions distracted this information from our community velampit a purna market viskapatnam these were people are not following a health process and health care tips and also that area is not be good and totally air pollution and which will help them very much some of the families which were learning in the community were following.

an healthy diet and eating an rich or main on food that will damages their health and leads some problem in their health and the community which leads surveyed in the most of

community most the patients were diabetes and sugar and cancer and Asthma etc.

CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation. Attach the questionnaire prepared for the survey.

my survey was done in the location of Baba garden's vilampeta purna market. viskhaptram. The survey was done on each and every house for the project purpose. in that area some people are very lower in their taking and some are two-riched and well settled and some are middle-class families and some families are not having money to buy proper food to eat one are they are not too poor and can't eat same every one they are not having sufficient money for the healthy nutritious food to eat like other.

So, these kind of families were didn't answerd any questions for community service project.

And some of the families answerd my questions they responds very well to my every questions. they also give suggestion to be healthy with consuming a healthy food in our daily area. they are the details noticed in my area.

Describe the problems you have identified in the community

The problems was identified in our community is they are sugar and obesity people who are under age of 40 to 70 years. And in the community some families were not eating community is healthy food they were eating the food which gives them an unhealthy life liked oily, sugar foods was commoning by them and they getting health problems like mostly sugar obesity. The acute problem so many people not weekly or monthly health checking he not used checking his health and those drinks and passion drinks also like drugs and tobacco etc and also so many people are to in depend a sugar and cancer and Asthma & diabetes etc. this type of issues they are facing meeting is too tired many problems were because many of the people in our community were not answering to my questions.

meeting with all individuals that stop personality. made me to face lot of problems in my area.

They were not keeping money for the food which gives them nutrition. they are all eating of food, oily foods, lot of sweets etc.

Short-term and long term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

Short - TERM Action plan:

1. Choosing of outside junk food for a week (or) a month continuously then they will eat healthy food which includes vegetables, fruits etc.
2. Every family should be provided awareness on benefits of healthy foods.
3. Every family should change their identities and behaviour on the food they consume daily.
4. Every one should be drink at least 2 to 3 litres of water for better digestive system.
5. There were many of people who didn't consume healthy food so, we have to suggest them and make realize about the healthy food which will make their life healthy.

LONG - TERM ACTION PLAN:

1. These should be know which food is healthy to our body.
2. There should be a separate course on food habits.
3. Every family should be get a scientific knowledge about food to eat.

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

I learned to many classes in the program of community service conducted by the college management.

I learned to speak straight forward and families talking with other people.

I learned to give proper explanation on particular topic to other.

I learned the way of interacting with other and communicating and get to know the problems which they are facing. And I learned the way of preparation of documentation on the problem of people.

I learned to be stay with patience when others are not answering to my community service project questions.

The main problem of the community is to be maintain a health diet plan. They are all not taking on healthy diet.

If they eat an unhealthy food then they will get unhealthy.

Through this program all are noticed that consuming / eating of healthy food gives us healthy life. And this program teach every one to be happy.

Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex., a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.

The Report shall be limited to 6 pages.

-: Abstract :-

AS NON - COMMUNICABLE OR CHRONIC DISEASES ARE a growing threat to human health and economic growth, political stakeholders are aiming to identify options from improved response to the challenges of prevention and management of non - communicable diseases.

This paper is intended to contribute ideas on personalized chronic diseases management which are based on experience with one major chronic disease namely diabetes mellitus.

Diabetes provides a pertinent case of chronic disease management with a particular focus on patient self-management.

Personalizing the management of diabetes according to the patient's individual profile can help in improving therapy adherence and treatment outcomes. This paper suggests using a six-step cycle for personalized diabetes (self-management and collaborative use of structured blood glucose data

and health solutions can be used to improve process efficiency and allow remark process.

Decision support tools and algorithms can help doctors in making therapeutic decisions based on individual patient profiles. Available evidence about the effectiveness of the cycle's constituting elements.

Justifies expectations that the diabetes management cycle as a chronic can generate.

medical and economic benefit chronic non-transmissible diseases represent a major problem in the world, being the main cause of death today. Diabetes mellitus is one of the most worrying chronic.

Introduction

The concept of stigma was initially introduced as a relationship between an attribute - between an attribute and a stereotype and its a reference to negative attributes, weakness & disadvantage. In other words, the stigmatized person is considered as possessing a different characteristics different characteristic from those who are accepted in office society and is treated differently by the community, which may have misinterpetations and inaccurate beliefs about the stigmatized person.

Over the years, the word stigma become related to degradation and unrelated to degradation and in general use, stigma refers between epilepsy and in a dequate feelings and behaviors, such as hostility, treated differently by the community which may have stigmatized person.

My Survey reports

• AGE Group

As per my observation, in my village 3 members are 20 office, 30 age group 5 members are 30-40 age group, 10 members are 40-50 age group, 4 members are 50-60 age group, 3 members are 60-70 age group, 2 members are 70-80 age group and 1 members are 80-90 age group. And the major age group is 40-50 and minor age groups are 70-80 and 80-90.

Above pie chart indicates that in 30 households that in 30 households they secure 35% of 40-50 age group 17.5% of 30-40 and 50-60 age groups, 10% of 20-30 and 60-70 age groups, 5% of 70-80 and 80-90 age group.

GENDER

AS per my observation, in 30 households 3 members are male and 27 members are female.

According to Pie chart, 25% of male candidates and 75% of female candidates.

LIFE style

AS per my observation in 30 houses, 29 houses are rented and 1 houses are owned and 1 house is own. majority people have rented houses.

According to pie chart, in 40 households 90% of own houses, 7.5% of rented houses and 2.5% of others.

Survey on living with chronic diseases
these your chronic medical condition are
diabetes, heart attacks, cancer, Asthma,
others. they medicines are these are taking
for your condition more than and 6
or more right now. many doctors do you
consulted to manage your condition one - my
primary care physician and 1-8 including
my primary and also 8 two specialists
more than three. it's complicated they
have only habituated to drugs and
alcohol only to Alcohol. Do you currently
suffer from any chronic diseases yes.
family members give you unsolicited advice
about managing your condition you are
employed. what are issues at work that
challenging unsympathetic co-workers / boss
not enough paid sick leave I feel I need to
hide my symptoms in I am having a bad
day inflexible schedule Having good physical
health several day.

HEALTH DISEASES

As per my survey in 30 households 23 families health condition good, families condition good, families are suffering from blood.

According to pie chart in 40 households 65%

of 1 often do you have trouble taking medication that way you have been told to take them. some times I take them as prescribed any I do not have to take medicine. I seldom take them as prescribed. totally physically impaired then until severely physically impaired. In general how do you say your health is good. in you often do you get a health check - if up once a year take medication for your - long term illness, disability medical condition.

CHAPTER 6: RECOMMENDATIONS AND CONCLUSIONS OF THE MINI PROJECT

Diabetes is a slow killer with no known curable treatments. However, its complications can be reduced through proper awareness and timely treatment. Three major complications are related to blindness - kidney damage and heart attack. It is important to keep the blood glucose levels of patients under strict control for avoiding the complications. One of the difficulties with tight control of glucose levels in the blood is that such attempts may lead to hypoglycemia that creates much worse complications than an increased level of blood glucose. Researchers now look for alternative methods for diabetes treatment. The general of this paper is to give a general idea of the current status of diabetes research. The author believes that diabetes is one of the highly demanding research topics of the new century and wants to encourage new researchers to take up they.

Student Self-Evaluation for the Community Service Project

Student Name: THOJA DUSHYANTH SWAMI
