FOR THE PARTIAL FULFILMENT OF DEGREE OF**

BACHELOR OF SCIENCE

2020-2023

DECLARATION

I, **BARNIKANA KOTARAO**, Student of III B.Sc - M.P.C., Mrs. A.V.N College, affiliated to Andhra University here by declared that this project entitled **"SURVEY ON WATER POLLUTION USED BY PEOPLE AT N.T.R. COLONY AND PORT AREAS, VISAKHAPATNAM"** is a genuine work carried out by me under the guidance of **Mrs. P. Krishna Kumari**, HOD, Mrs. A.V.N College, Visakhapatnam, Andhra Pradesh. Furthermore, this project work was not submitted to any other institution or University for awarding any Degree.

University

YEAR

Instructions to Students for Community Service Project

Please read the detailed Guidelines on Community Service Project hosted on the website of AP State Council of Higher Education <https://apsche.ap.gov.in>

Link:

<https://apsche.ap.gov.in/Pdf/Guidelines%20for%20the%20OJT%20Internship%20Community%20Service%20Project.pdf>

1. It is mandatory for all the students to complete 2 months (180 hours) of Community Service Project as a part of the 10-month mandatory internship/on the job training.
2. Consider yourself a committed volunteer in the community, you work with.
3. Every student should identify the village/community/habitation for Community Service Project (CSP) in consultation with the College Principal/the authorized person nominated by the Principal.
4. Report to the community/habitation as per the schedule given by the College. You must make your own arrangements for transportation to reach the community/habitation.
5. You will be assigned a Faculty Guide from your College. He/She will be creating a WhatsApp group with your fellow volunteers. Post your daily activity done and/or any difficulty you encounter during the programme.
6. You should maintain punctuality in attending the CSP. Daily attendance is compulsory.
7. You are expected to learn about the community/habitation and their problems.
8. Know the leaders and the officials of the community/habitation.
9. While in the project, always wear your College Identity Card.
10. If your College has a prescribed dress as uniform, wear the uniform daily.
11. Identify at least five learning objectives in consultation with your Faculty Guide. These learning objectives can address:
 - Information about the community, including the realities and

problems of the society.

- Need for creating awareness on socially relevant aspects/programs.
- Acquiring specific Life Skills.
- Learning areas of application of knowledge and technologies related to your discipline.
- Identifying developmental needs of the community/habitation:

12. Practice professional communication skills with team members, and with the leaders and officials of the community. This includes expressing thoughts and ideas effectively through oral, written, and non-verbal communication, and utilizing listening skills.
13. **Be regular in filling up your Program Book. It shall be filled up in your own handwriting. Add additional sheets wherever necessary.**
14. At the end of Community Service Project, you shall be evaluated by the person in-charge of the community/habitation to whom you report to.
15. There shall also be an evaluation at the end of the community service by the Faculty Guide and the Principal.
16. Do not indulge in any political activities.
17. Ensure that you do not cause any disturbance to the inhabitants or households during your interaction or collection of data.
18. Be cordial but not too intimate with the people you come across during your service activities.
19. You should understand that during this activity, you are the ambassador of your College, and your behavior during the community service programme is of utmost importance.
20. If you are involved in any discipline related issues, you will be withdrawn from the programme immediately and disciplinary action shall be initiated.
21. Do not forget to keep up your family pride and prestige of your College.
22. Remember that you are rendering valuable service to the society and your role in the community development will become part of the history of the community.

Community Service Project Report

Submitted in accordance with the requirement for the degree of...B.sc...

Name of the College: MYS. A.V.N College

Department: Chemistry

Name of the Faculty Guide:

Duration of the CSP: From.12/9/22 To.12/4/22

Name of the Student: B. Kotarao

Programme of Study: water pollution

Year of Study: 2020 - 2023

Register Number: 720130805011

Date of Submission:

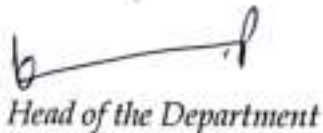

Student's Declaration

I, B. Kotarao, a student of Mpc Program,
Reg. No. 720130805011 of the Department of Chemistry,
Mys. A.V.N. College College do hereby declare that I have completed
the mandatory community service from 12/09/22 to 12/11/22 in
part area (Name of the Community/Habitation) under the Faculty
Guideship of _____, (Name of the Faculty Guide), Department
of English in A.V.N. College

B. Kotarao

Certificate from Official of the Community

This is to certify that B. Katarao (Name of the Community Service Volunteer) Reg. No 720130805011 of Mrs. AVN College (Name of the College) underwent community service in post area (Name of the Community) from 12/09/2022 to 12/11/2022. The overall performance of the Community Service Volunteer during his/her community service is found to be _____ (Satisfactory/Good).

Authorized Signatory with Date and Seal

Acknowledgements

It is really a matter of pleasure for me to get an opportunity to thank all the persons who contributed directly or indirectly.

for the successful completion of the project report.

A study on WATER POLLUTION.

Also I am thankful to my faculty guide.

From Mrs. A.V.N. College Vishatipal
-nam, for being a source of support
during this training period.

CHAPTER 1: EXECUTIVE SUMMARY

The community service report shall have only a one-page executive summary. It shall include a brief description of the Community and summary of all the activities done by the student in CSP and five or more learning objectives and outcomes.

- The present study water pollution in air colony about to 1:51 at the port city vishakhapatnam which have several type of water pollution are their industries, sirs, water water world are major contributors to water pollution.
- The whole colony was divided into to quadrates of 700x400 meter the solid rings understed waste water directly contributes Chloramphenical typhid fever and raba viruses.

CHAPTER 2: OVERVIEW OF THE COMMUNITY

About the Community/Village/Habitation including historical profile of the community/habitation, community diversity, traditions, ethics and values.

Brief note on Socio-Economic conditions of the Community/Habitation.

N.T.R colony is located in Vishakhapatnam district in the state of Andhra Pradesh, India.

Water pollution is any chemical, physical change in the quality of water that has harmful effect or oxydide mandifa waste mine drainings modern washing powder and the chemical pollution ground water pollution.

nutrien pollution which include nitrates, phosphates is leading type of contamination in fresh water.

CHAPTER 3: COMMUNITY SERVICE PART

Description of the Activities undertaken in the Community during the Community Service Project. This part could end by reflecting on what kind of values, life skills, and technical skills the student acquired.

In this area water pollution degrades the quality of the water in the water bodies.

Many diseases can spread through waste water cause the disease of fever malaria, water cause the disease in the amount of organic waste in water bacteria use up the available oxygen.

Surface water and ground water are both important sources for community water supply needs.

Waste water directly contributes cholera typhoid fever. For water pollution causes same disease.

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	visited the study area and divided into colony four diseases	learned about water pollution types	@
Day - 2	Identify and tabulated the list of home members	studied types of pollution wastages	@
Day - 3	Identify and tabulated the numbers of members the line 1 and 2	we observed mode of waste bodies pollution	@
Day - 4	Identify and tabulated the colony in line 3 8 4	we identified nose of water bodies pollution	@
Day - 5	Identify and the number list of 5 th line	studied water pollution of causes	@
Day - 6	studied the abundance of water pollution in whose are of not colony	learned identification of water pollution	@

WEEKLY REPORT

WEEK - 1 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: The waste from house holds, factories or agricultural lands gets discharged into rivers or lakes, this wastes can either be in the form of liquid waste garbage or sewage the harmful chemical going out of this waste can damage aquatic life.

Not just the aquatic life even when the humans and up drinking polluted water they more make themselves vulnerable to various life threatening illness like hepatitis cholera typhoid and many other water borne disease.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	The data detailed in 1st week is tabulated and studied.	learned about water pollution in the community area.	ESK
Day - 2	using the data and awareness camp has been conducted in the community	learned about how to make a campaign	ckr
Day - 3	By the computerizing awareness about the water pollution	learned about causes of water pollution in area	sj
Day - 4	The campaign has been continued and created awareness on value of	learned about various friends being by the community area	ckr
Day - 5	The campaign has been continued and created awareness about increase water pollution in area	learned about various treat being by pollution in community or area	sj
Day - 6	The campaign has been continued and created awareness about protective measure a plantation area.	learned about protective measure taken to resource of water	ckr

WEEKLY REPORT

WEEK - 2 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: The pollution happens when water flowing down. Streams get contaminated at different by sewage and industrial effluents. Water waste goes in the oceans, rivers etc.

In the fact water especially fresh water is one of the most important elements in the world. However with increasing levels of water pollution.

The oxygen level in polluted water is lower this causes the death of several fish safe for consumption.

Water is required in the body and depends on several factors including maintaining health.

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	The community project report programme body were downed are pointed has lone	people in she was years using mirererse to disease.	
Day - 2	The data obtained and prepared literature were entered in the program book.	Exciting should be created	
Day - 3	The picture taken during project were during project found in the program book.	people are in N.T.R Colony are using either.	
Day - 4	The program book papers are arranged in order and verified once again.	people are in the colony are using either.	
Day - 5	The picture taken during project were pointed and fixed in program.	people of suffering with disease due to during	
Day - 6	The program book has given for binding Role work.	people are able to drink multiple water.	

WEEKLY REPORT

WEEK - 3 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

Ground water It is a source of a water that is under the land surface It is accessible by wells, tube well and hand pumps.

Surface water This type of source is found on the surface of the Earth like ponds rivers etc....)

Rainwater It is the major source of water from rain Chlorine and Chloramide are the major used in public water system.

Safe and readily available drinking water is key to public health. community water system and water safety plans are important ways to ensure the health of a community.

ACTIVITY LOG FOR THE FORTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	few people are drinking mineral water in shivalyam.	peoples in N.T.R Colony purifying mineral water	N. Suresh
Day - 2	same people are receiving the munciple water	drinking municipal water the ground water	N. Suresh
Day - 3	Many people are suffering with joint Rules has brinking water	They are affective to drink the ground water	N. Suresh
Day - 4	some people are feacing poor water facilities in N.T.R coloney	drinking ballese waters	N. Suresh
Day - 5	many people are facing poor water pairers has drinking water.	Good facilities are should be created	N. Suresh
Day - 6	Many peoples are getting the water from outside due to water pollution.	awareness should be created the N.T.R Colony.	N. Suresh

WEEKLY REPORT

WEEK - 4 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

OXYGEN - DEPLETION POLLUTION :-

Another consequence of algal blooms in their consumption of oxygen supplies, this means that these species which depends upon oxygen to survive are killed off. While an aerobic ones their some anaerobic microorganisms are capable of producing ammonia sulphides and other harmful toxins which can make the water even more dangerous to animals and humans too.....

Surface water pollution :-

Referring to all water sources above ground such as rivers, lakes, seas and oceans, surface water pollution can occur both naturally and artificially ways to ensure the health of community.

ACTIVITY LOG FOR THE FIFTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	The data obtained 1st and 2nd week is analysed	learnt about how to prepare a data analyst	S. Saijy
Day -2	The analysed data is written on the proper in required manner	learn about methods of data presentation	S
Day -3	The picture has been captured which were taken during computing	learnt about methods of data presentation	S
Day -4	pie charts and tabulated forms were report	learnt about preparation of tabular forms	S. Saijy
Day -5	Information disseminated is updated in the data report	learnt about information updated in the data required.	Saijy
Day -6	The reported data self verified once again	learnt about how to prepare and report data analyst	Saijy

ACTIVITY LOG FOR THE SIXTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day-1	Too people are drinking mineral water in shivalayan	people in n.t.r colony prefer mineral water	N. S. Das
Day-2	some people are receiving the mineral water	drinking mineral water in their area	N. S. Das
Day-3	many people are affoediac drink the ground water.	They are affordable to drink the ground water	N. S. Das
Day-4	same people are facing with ijoint by drinking water.	Drinking baludary water	N. S. Das
Day-5	many people are facing poor water facilities in N.T.R Colony	good belibery are should be created	N. S. Das
Day-6	many people are getting the water from out side due to water pollution.	Awareness be created here N.T.R Colony	N. S. Das

CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation Attach the questionnaire prepared for the survey.

oxygen - depletion pollution :-

Another consequence of algal blooms is their consumption of oxygen supplies, this means that those species which depend upon oxygen to survive are killed off. While anaerobic ones their. Some anaerobic sulphides and others harmful toxins. which can make the water even more dangerous to animals and human too,

Surface water pollution :-

Referring to all water surface above ground such as rivers lakes, seas and oceans, surface water pollution can occur both naturally accidentally and intentionally.

Describe the problems you have identified in the community

- * N.T.R colony is rich in water resources have several benefits values most of the people in the area don't know their values.
- * Due to this they are refusing to protect them.
- * The people in this study area losing several valuable resources contaminated due to this improper conservation.
- * Due to insufficient knowledge the people in the area are refusing to conserve the plants and losted our pure water sources.
- * In the area of N.T.R colony people do not know the value of water.

Short-term and long-term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

Since the water pollution in the studied area high level and their quantity is being their quantity there is a necessity to conserve those type of conveying the water surface.

- * pick up litter and throw it away in garbage can.
- * Blow or sweep fertilizer back into the grasses if it gets into grass right before it rains. the chemicals will wash into storm drains and water way.
- * wash our vehicles or out door equipment where it can flow to great or grassy area instead of a street.
- * mow or compost grass or yard waste.

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

The whole colony was being the problem of water pollution those people affected of these pollution side effect like malaria and various typhoid etc. some of the people facing calcium, deficiency and even deficiency problem. children and adults are also facing health issues for water pollution of drinking water.

The solution of these problem one and only awareness about water importance and how the pollution affect resources and has to save water bodies.

Report of the mini-project work done in the related subject w.r.t the habitation/village.

A mini-project work in the related subject w.r.t the habitation/village. (For ex., a student of Botany may do a project on Organic Farming or Horticulture or usage of biofertilizers or biopesticides or effect of the inorganic pesticides, etc. A student of Zoology may do a project on Aquaculture practices or animal husbandry or poultry or health and hygiene or Blood group analysis or survey on the Hypertension or survey on the prevalence of diabetes, etc.

The Report shall be limited to 8-10 pages.

Water pollution :-

Water pollution is the contamination of water in water bodies such as rivers, oceans, lakes and swamps. This means that one or more substances have built up in water to extent of causing problem to people, animals and plants.

So whether or hot water is considered to be polluted will depend on what that water was go to be used for.

causes of water pollution.

There are numerous causes of water pollution the main ones are listed below type at sources.

1. point source :—

It is directly to be to influence. here pollutant travels directly from source to water.

point sources are easy to regulator.

The main sources of water pollution are as follows.

* Community water include discharge of from house : Commercial / and Industrial establishments connects to public sewerage system.

To public sewerage system.

Industrial waste :- The Industrial discharge. several Inorganic and Organic pollution which can be harmful to the living beings.

3. Agricultural - Sources :-

- * Fertilizers contain major plant nutrients such as Nitrogen, phosphorus and potassium.
- * Excess fertilizers so many be moved with surface water of rivers, lakes and ponds by runoff and drainings.
- * pesticides :- include, insecticides, fungicides, herbicides, nematocides, and soil fungicides. they contain cyanide. They contain a wide range of chemicals such as chlorinated hydrocarbons :-

4. underground water pollution :-

- * In India at many places, the ground water is threatened with contamination due to seepage from industrial and municipal waste to and effluents sewage - chemical and agricultural runoff.

5. Marine pollution :-

- * oceans are the intimate recipients of all natural and manmade pollutants.

* Rivers are discharge their pollutant into the sea. the sewage and garbage of coastal cities are also dumped into the sea.

6. Garbage :- plastics are non-biodegradable mass plastic bag water bodies and contaminate water. -

7. Urbanization :- Urbanization is a key factor in increasing the amount of water pollution.

8. dumping solid waste :- Human's after care lessly dump their trash in the seashore near rivers.

9. oil spills :- Accidental oil spills have devastating effect on seas.

10. Dissolved solid water :- Human polluting gasses in the air can dissolve into salt and proton water and polluted it.

Control measures :-

- * Riparian practices
- * Recycle.
- * Treatment of sewage water and the industrial effluents should be done before releasing water bodies.
- * Hot water should be cooled before reuse from the power plants.
- * Domestic cleaning in tanks, streams and rivers, which supply drinking water should be prohibited.

Ground water pollution :-

- * Any addition of artificial substance to ground water caused by human activities is considered to be contamination. It has after been assumed that contaminants left on or under the ground will stay here.

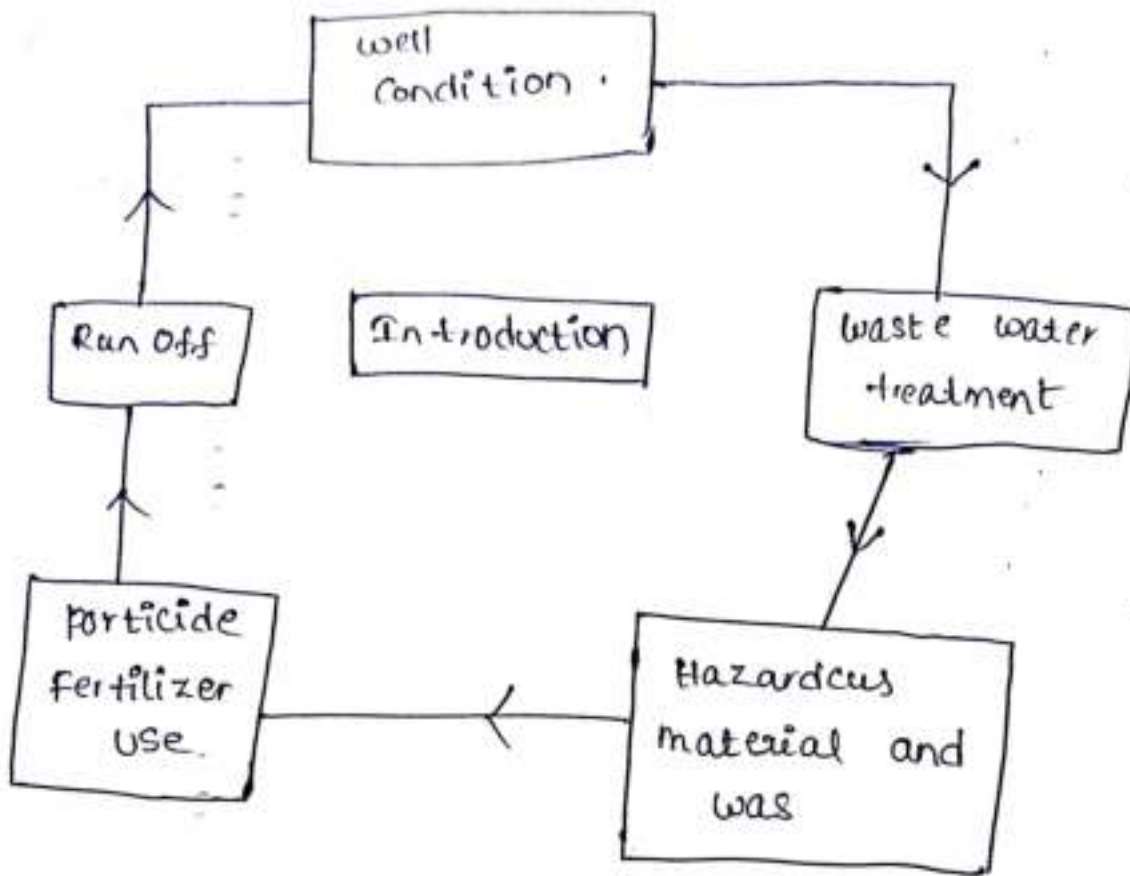

Source of ground water pollution.

- * Most concern over ground water contamination has centered on pollution associated with human activities.

* Human ground water Contamination has centered on to waste disposal system & land disposal of solid.

* municipal waste water waste Impoundments land spreading of sludge . brine disposed from the petroleum Industry .

* mine waste deep cell waste are agricultural herbicides, and animals sources or ground.

Student Self-Evaluation for the Community Service Project

Student Name: - B. Kotarao

Registration No: 720130805011

Period of CSP: From: To:

Date of Evaluation: 9/5/2018 N.T.R Colony, Vizag.

Please rate your performance in the following areas:

Rating Scale: Letter grade of CGPA calculation to be provided

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5
8	Work Plan and organization	1	2	3	4	5
9	Professionalism	1	2	3	4	5
10	Creativity	1	2	3	4	5
11	Quality of work done	1	2	3	4	5
12	Time Management	1	2	3	4	5
13	Understanding the Community	1	2	3	4	5
14	Achievement of Desired Outcomes	1	2	3	4	5
15	OVERALL PERFORMANCE	1	2	3	4	5

Internal Evaluation for the Community Service Project

Objectives:

- To facilitate an understanding of the issues that confront the vulnerable / marginalized sections of society.
- To initiate team processes with the student groups for societal change.
- To provide students an opportunity to familiarize themselves with the urban / rural community they live in.
- To enable students to engage in the development of the community.
- To plan activities based on the focused groups.
- To know the ways of transforming society through systematic programme implementation.

Assessment Model:

- There shall only be internal evaluation.
- The Faculty Guide assigned is in-charge of the learning activities of the students and for the comprehensive and continuous assessment of the students.
- The assessment is to be conducted for 100 marks.
- The number of credits assigned is 4. Later the marks shall be converted into grades and grade points to include finally in the SGPA and CGPA.
- The weightings shall be:
 - Activity Log 20 marks
 - Community Service Project Implementation 30 marks
 - Mini-Project Work 25 marks
 - Oral Presentation 25 marks
- Activity Log is the record of the day-to-day activities. The Activity Log is assessed on an individual basis, thus allowing for individual members within groups to be assessed this way. The assessment will take into consideration the individual student's involvement in the assigned work.
- While evaluating the student's Activity Log, the following shall be considered -
 - a. The individual student's effort and commitment.
 - b. The originality and quality of the work produced by the individual student.
 - c. The student's integration and co-operation with the work assigned.
 - d. The completeness of the Activity Log.
- The assessment for the Community Service Project implementation shall include the following components and based on Weekly Reports and

Outcomes Description

- a. Details of the Socio-Economic Survey of the village/habitation.
- b. Problems identified.
- c. Community Awareness Programs organized.
- e. Suggested Short-Term and Long-Term Action Plan.
