

### **Environmental Education:**

Environment and sustainability is a part of the foundation course. Environmental Studies pursued in the first year. The students understand the importance to be given for keeping the globe green and hospitable. Students are being sensitized on the environmental issues to promote and upkeep the vegetation on the campus. They are encouraged to conserve natural resources. Awareness is created about pollution control, not littering waste on campus, promoting plantation of saplings, balancing eco-system and biodiversity and so on. On significant occasions, rallies and meetings, as per protocol of UGC, are organized. National and International days pertaining to environment are observed signifying its importance.
