Acknowledgements

I would like to convey my heartfelt gratitude to our mentor Smt. Bhanumathi for their guidance as well as our principal MR. Simhadri Abidu who gave me the wonderful opportunity to do this wonderful project on the topic "online transactions" which also helped me in doing a lot of research and I came to know about so many new things that I've learned from this project. I am really thankful to them.

secondly, I would also like to thank you parents and friends who helped me a lot time frame. The completion of the project that would not have been possible without their help and insights.

CHAPTER 1: EXECUTIVE SUMMARY

The community service report shall have only a one-page executive summary. It shall include a brief description of the Community and summary of all the activities done by the student in CSP and five or more learning objectives and outcomes.

I have conducted the survey about the topic is "online transaction" I have chosen a community called "Jelli Vedi" this community is located in Town in Visakhapatnam. This community is in middle of houses.

I went to the households in this community and asked a few questions to the people about the ~~wa~~ online transaction in their community. After asking questions about ~~water~~ online transaction. I note down the response which was said by the people and this survey have done for 6 weeks.

After the completion of survey, I note down their problems of online transaction. From this survey, I came to know that, people use some other apps to do online transaction.

even some times the apps was not working properly the bank servers are most busy and some times the amount will be debited and they can receive that amount.
