

## CREDIT BASED GRADING SYSTEM

### Definition of Credit:

Credit is the term used to denote a unit of learning, usually measured in hours of study or achievement of threshold standard or both.

A credit is the value assigned to a course, usually one credit equals one hour class period per week.

### Award of Grades:

S.No.	Range of Marks	Grade	Grade Points
1.	> 85%	O	10.0
2.	75%-84%	A	9.0
3.	66%-74%	B	8.0
4.	57%-65%	C	7.0
5.	47%-56%	D	6.0
6.	35%-46%	E	5.0
7.	< 34%	F (Fail)	0.0
8.	Incomplete (Subsequently changed into pass or E to O or F grade on subsequent appearance of the examination)	I	0.0

### Grade Point Average:

- i. A Grade Point Average (GPA) for a year is calculated as:

$$\text{GPA} = \frac{\sum (C * G)}{\sum C}$$

Where C= Number of credits for the subject paper

G= Grade points obtained by the candidate in that subject paper

- ii. Grade Point Average (GPA) is awarded to a candidate who passes in all the subject papers in that year.
- iii. Cumulative Grade Point Average (CGPA) is calculated by the end of third year using similar formula provided a candidate passes in all subject papers of all the three years.
- iv. Declaration of class is based on CGPA as follows:

First Class	≥ 6.5 and above
Second Class	≥ 5.5 but less than 6.5
Third Class	≥ 5 but less than 5.5

- v. Existing facility of grace or grafting enabling a candidate to obtain a pass in the examination shall be continued. Improving CGPA for improvement of class will be continued as per the existing rules.
- vi. CGPA multiplied by "10" gives aggregate percentage of marks obtained by a candidate.

### GENERAL

#### I YEAR: B.A.

S.No.	Subject	Teaching Hours/week	Annual pattern Credits	Marks
1.	English Language + Communication Skills	3+3	4+2	50+50
2.	Second Language	4	4	100
3.	Foundation course-I	3	4 (3+1)	70+30
4.	Computer Skills or Computer Course	2	2	100
5.	Core 1 -I	6	6	100
6.	Core 2 -I	6	6	100
7.	Core 3 -I	6	6	100
